Identity is the intermediate stopover in the two-way feedback between economics and politics. A focus on identity politics has important practical implications. One of them is that, to succeed in the fight against populism, democratic politicians have to learn to practice identity politics, but of the right kind.

Populism and Identity Politics  
This identity politics is a dangerous phenomenon. The alternative presented in the mainstream political discourse is an identity politics which is supposed to represent the interests of minority or marginalised groups, by tracing politics to the foundation of a group identity, generally defined according to abstract categories of race and gender.

The problem with identity politics | New Humanist  
Identity politics is a term that describes a political approach wherein people of a particular religion, race, social background, class or other identifying factor develop political agendas and organize based upon the interlocking systems of oppression that affect their lives and come from their various identities. Identity politics centers the lived experiences of those facing various systems of oppression to better understand the ways in which racial, economic, gender, and other forms of oppre
