Rather than inert bullets, Gyrojets fire small rockets called Microjets which have little recoil and do not require a heavy barrel or chamber to resist the pressure of the combustion gases. Velocity on leaving the tube was very low, but increased to around 1,250 feet per second at 30 feet. The result is a very lightweight weapon. Long out of production, today they*

Gyrojet - Wikipedia

Produced for two years, this Gyrojet Mark II Semi-Automatic Rocket Pistol in the Guns.com Vault dates from October 1969- – near the end of the company's existence.

The series that caught my eye was his Pistol Series, which has Rocket Sweep as a core element. My co-coaches and I agreed to try to get some of this installed if we had the luxury, and the 2014 season was our first attempt. First a side note on how and why we decided to add this in last season. Two key reasons:

These 3 plays all complement each other and look the same the for the first few steps. This series is easy to install and it will allow you to score more points.

Pistol Wing T Jet Series | Jet Sweep, Belly, and Belly Pass

Rocket-Powered Pistol: MBA Gyrojet Model B. OK fellow rocket scientists, you're going to like this from Blue Book of Gun Values. When John Glenn, Neil Armstrong, Buzz Aldrin, James Lovell, Alan Shepard and the rest of the astronauts were launching off on top of their massive Saturn 5 rockets from Pad 39A of NASA's complex in Cape Canaveral, Fla., during the 1960s, Robert Mainhardt and Dr. Arthur Biehl — hence MB Associates or MBA — were getting their rockets off horizontally at a gun range.

Rocket-Powered Pistol: MBA Gyrojet Model B

Robert Mainhardt and Art Biehl joined forces to form MB Associates, or MBA, in order to develop Biehl's armor-piercing rocket rounds. Originally developed in a 13mm caliber, the cartridges were self-contained self-propelled rockets. A family of Gyrojet weapons was designed, including a pistol, carbine, "rifle" and squad-level light machine gun.

MBA Gyrojet | Gun Wiki | Fandom

Rocket Ammo — Firing a Gyrojet Pistol and Carbine Russ Chastain 03.12.19 Once upon a time, the Gyrojet was invented; a gun which fired self-propelled rockets instead of simply flinging projectiles.

Rocket Ammo - Firing a Gyrojet Pistol and Carbine ...

The pistol fires from a fixed magazine which is loaded from above. When the safety is deactivated and weapon cocked, a pull of the trigger actually rams a rocket projectile back onto the fixed firing pin (sort of like dropping a mortar down the launcher) which ignites the rocket propellant charge.

FILM FRIDAY | S2 E14 | Rocket vs. Jet - YouTube

This pistol formation- jet sweep play is very explosive. The pistol formation is a great way to spread the field and to take advantage of a mobile QB. The jet sweep will allow the running back to receive the hand-off while running full speed. It will allow the running back to attack the edge of the defense quickly.

Pistol Formation- Jet Sweep, Speed Sweep Play

A jet pack, rocket belt, or rocket pack is a device worn on the back which uses jets of gas or liquid to propel the wearer through the air. The concept has been present in science fiction for almost a century and became widespread in the 1960s. Real jet packs have been developed using a variety of mechanisms, but their uses are much more limited than their fictional counterparts because of the challenges of the Earth's atmosphere, gravity, the low energy density of utilisable fuels, and the huma
