 What the first Photo-Journal volumes did for the classic comics of the Golden and Silver Ages, these beautiful hardcovers do for Marvel Comics, reproducing over 7,700 covers from the dawn of the Marvel Age to 1986! Here are the classic runs of fan-favorite and forgotten titles - reproducing each cover in full-color, photographed from the best possible copies of each issue available. Volume 4 picks up where Volume 3 left off, and features runs of such Silver to Modern Age Marvel comics as Ka-Zar, Marvel Team-Up, Power Man, Tales to Astonish, Two-Gun Kid, Uncanny X-Men, and many, many more - all presented in a colorful, informative format; the perfect reference guide for any comic collector or historian!
 Published in 1990, Ernst and Mary Gerber's Photo-Journal Guide to Comic Books is still one of the most comprehensive and exhaustive forays into the history and art of comic books. Featuring over 20,000 cover images across two oversized volumes, The Photo-Journals document comic books published during the Golden Age (1938-45) and into the dawn of the Silver Age (mid-1950s), reproducing each cover in full-color, photographed from the best possible copies of each issue available. In addition, each series listing features supplemental information noting publication year, creators, scarcity guide, and more. No comic collector's reference library is complete without these massive, informative tomes! Volume 2 features Golden and Silver Age comics listed alphabetically from K-Z, including Justice League, The Lone Ranger, Miss Fury, Tales from the Crypt, and many, many more!

This ACTION Version Comic Journal Notebook is on SALE for a LIMITED TIME! COco blank comic books are perfect for young (and young at heart) aspiring comic book artists! Use these ready-made templates, so instead of spending time drawing the frames, you can concentrate on unleashing your creativity - crafting and drawing your comic book characters. We listened to what you want on a blank comic book journal notebook and present to you, possibly one of the best blank comic books you'll ever own: - 25 unique template styles, arranged in different sequences for endless comic book story possibilities! Not just one template repeated throughout the whole book -- or five, or ten but 25 different templates! Isn't that amazing? - 50 single-sided pages to fill with your imagination and creativity, so that you're free to use pens, markers, pencils, crayons, and other coloring materials without having to worry about ruining the back page. Use the extra blank sheet provided as blotter page or put extra sheets of copy paper in between the pages to minimize bleed through. We realized kids (and adults) like to use different coloring materials like pens or markers. So we printed the frames on one side of the page only. This way, you won't have to worry if there's a bit of ink seeping through the page. Afterall, what good is 100 pages, if you can't use half of it because your drawing bleeds through when using wet medium? Just make sure you protect the next page of your blank comic book notebook by using several copy papers in between, depending on your coloring medium. - Draw your own comic book and have your comics collection in a neatly-bound comic book! Use this comic book journal/sketchpad to show mom and dad, grandma and grandpa, your friends and teachers the great comic book stories you have created! Now it's in one neat, professional-looking comic book, instead of having several pages scattered around the house. - Choose from different styles and different cover colors to make your comic book series! This particular comic book journal notebooks is what we call Action Version . Check out out other versions including Classic Frames 1 to 6, Classic Frames 1 to 9, Action, and Cute. - If you like this, check out other COco Blank Books and Journals at ScriboCreative.com/COco. Need several copies for camp, class, clubs, or just to give away to creative and imaginative comic book artists? Email us at info@scribocreative.com with subject line "Bulk Orders" and we'll try to give you the best deal. Happy C-reating and O-rganizing! Let's COco together.

This Fun-Schooling Math and Writing Journal is packed full of fun activities to help children learn! They will practice the skills they need to add, subtract, calculate, use logic, draw, write, and use their imaginations.The characters in the book are fun and will remind your child of playing with Legos, robots, Mine-craft, pets, friends! There are over 100 activities, games, and practice pages in this book to help your child learn. Be sure to spend time teaching your child when he needs help. Some games are designed for TWO people to play together. Almost all the activities are Logic-Based, that means that your child may not need very much help figuring out what to do on each page. The book is best for ages 6 to 11. Many of the games from "The Littlest Math book" are found in this book, but this is a much bigger size. This book has wide margins and extra white space so your child will have lots of room to draw and doodle while figuring out the math mysteries! This book is designed to work well for Visual Thinkers and children with ADHD, Asperger's and Dyslexia. It is important for parents and teachers to understand that creative children need white space so they can work out their problems. this book offers a lot more creative freedom than any other math book on the market. The goal is to inspire your child to find joy in numbers, writing, logic, drawing and creativity. While your child delights in this fun method of learning, he or she will be practicing basic math skills. You may have a children who is older, but never really grasped the meaning behind the math. They might be offended by workbooks that are babyish - but this one is FUN! This book always connects math with meaning so your child can apply mathematics to real life. We want each student to develop strong thinking skills, not just to be able to memorize and repeat facts. We want each student to love learning and experience the joy of curiosity, discovery and creativity as part of their educational journey.
