**Examines the educational programs American Indians developed to preserve their cultural and ethnic identity, improve their livelihood, and serve the needs of their youth in Chicago. After World War II, American Indians began relocating to urban areas in large numbers, in search of employment. Partly influenced by the Bureau of Indian Affairs, this migration from rural reservations to metropolitan centers presented both challenges and opportunities. This history examines the educational programs American Indians**

In what John J. From the sixteenth century to the eighteenth century, hermaphrodites were discussed and depicted in a range of artistic, mythological, scientific and erotic contexts. Early Modern Hermaphrodites looks at some of those representations to explore the stories they tell about ambiguous sex and gender in early modern England. Gilbert examines the often contradictory ways in which hermaphrodites were represented as both spiritual ideals and sexual grotesques; as freaks, erotic objects and medical

*In Choosing to Care, Kyle E. Ciani examines the long history of interactions between parents and social reformers from diverse backgrounds in the development of social welfare programs, particularly childcare, in San Diego, California. Ciani explores how a variety of people—from destitute parents and tired guardians to benevolent advocates and professional social workers—connected over childcare concerns in a city that experienced tremendous demographic changes caused by urbanization, immigration, and the growth of a local U.S. military infrastructure from 1850 to 1950. Choosing to Care examines four significant areas where San Diego's*

Ciani shows how children from families in unstable situations, especially children from Native American, Asian, Mexican-descent, African American, and impoverished Anglo families, challenged a social reform system that defined care as both social control and behavioral regulation. ***Eloh', a Cherokee word, is usually translated by anthropologists as "religion," but it also simultaneously encompasses history, culture, knowledge, law, and land. In this provocative work, Jace Weaver interlaces these seemingly disparate meanings to form a coherent approach to Native American Studies. In nineteen interrelated chapters, Weaver presents a range of experiences shared by native peoples in the Americas, from the distant past to the uncertain future. He examines Indian creative output, from oral tradition to the postmodern wordplay of Gerald Vizenor, and brings to light previously overlooked texts. Weaver also tackles up-***

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to
