If you want to, you can learn excel VBA in one week,  
by spending an hour each day. With some extra time  
for practicing. However, I would recommend doing it  
a bit slower, say 2-3 videos a day, with lots of coding  
practice. All code used in the videos are made  
available for you to download.

That is how the Learn Math Fast System can teach  
two years of math in about two months. Other topics  
taught in volume 2 include cross multiplying, cross  
canceling, mixed numbers, negative numbers, and  
reducing fractions. These concepts are typically taught  
in the fourth and fifth grade, but there is no mention  
of grade level anywhere in the book. Each book cover  
looks as intellectual as the last, so older kids won't be  
embarrassed to carry a book that is below their grade  
level.
