Library and information science or "library and information studies" is a merging of library science and information science. The joint term is associated with schools of library and information science. In the last part of the 1960s, schools of librarianship, which generally developed from professional training programs to university institutions during the second half of the 20th century, began to add the term "information science" to their names. The first school to do this was at the Univers

Library and information science - Wikipedia
