New Marine Engines – We're More Than Just Engines

Dtorque is the world's only 50 hp diesel outboard and delivers an impressive torque output of 111 Nm. Ideal for workboats, safety and rescue boats, fishing boats, oil and gas and offshore vessels, government and port authority boats, passenger boats, and superyacht tenders.

Engines - YANMAR Marine International

The reciprocating marine diesel engine first came into use in 1903 when the diesel electric rivertanker Vandal was put into service by Branobel. Diesel engines soon offered greater efficiency than the steam turbine, but for many years had an inferior power-to-space ratio.

Marine propulsion - Wikipedia

The diesel engine, named after Rudolf Diesel, is an internal combustion engine in which ignition of the fuel is caused by the elevated temperature of the air in the cylinder due to the mechanical compression (adiabatic compression); thus, the diesel engine is a so-called compression-ignition engine (CI engine).
