NATIONAL BESTSELLER • From the author of *Into the Wild* and *Into Thin Air*, this extraordinary work of investigative journalism takes readers inside America's isolated Mormon Fundamentalist communities. Defying both civil authorities and the Mormon establishment in Salt Lake City, the renegade leaders of these Taliban-like theocracies are zealots who answer

only to God; some 40,000 people still practice polygamy in these communities. At the core of Krakauer's book are brothers Ron and Dan Lafferty, who insist they received a commandment from God to kill a blameless woman and her baby girl. Beginning with a meticulously researched account of this appalling double murder, Krakauer constructs a multi-layered, bone-chilling narrative of messianic delusion, polygamy, savage violence, and unyielding faith. Along the way he uncovers a shadowy offshoot of America's fastest growing

religion, and raises provocative questions about the nature of religious belief.

A political, moral and spiritual battle is raging on in America and around the world over Donald J. Trump. Amid all the controversies, Christian prophets have been claiming for over a decade that Trump is a chosen one; that he is God's man for the White House. The Trump Prophecies The Astonishing True Story of the Man Who Saw Tomorrow... and What He Says Is Coming Next Defender

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new

Jerusalem. With an introduction by Will Self.

YEHOVAH gave us the holy Law for a purpose. That purpose is to create a righteous people who will draw close to Him. When YEHOVAH created the nation of Israel He created a Common Wealth with a Law to govern it. While on earth, Yeshua was anointed to become both King and Priest over Israel. Now, instead of the sons of Aaron and the sons of David, Yeshua presides over the Law of Israel. Initially the Law was weak in that it could not change the nature of man so man would continue to sin. Through the resurrection, Yeshua was able to correct the weakness in the Law allowing man's sinful nature to be corrected. The Church has skewed the Gospel

In order to understand why Christianity abandoned the Law Church's history will be explained in the light of Bible prophecy. But is the media telling us the truth? No, say internationally-recognized prophecy expert and Fox News and History Channel commentator Paul McGuire and Pulitzer Prize-nominated investigative journalist Troy Anderson. America's most insidious enemies are not hostile nations; they are elite globalists-the "Establishment" that is making the "1 percent" even richer while working- and middle-class people watch their

Here is an invitation to join the anti-Establishment surge-what evangelist Franklin Graham calls "the Christian revolution"-and discover how to fulfill your own destiny in the run-up to the Second Coming of Jesus Christ. Why, when traditionally organized religious groups are seeing declining membership and participation, are networks of independent churches growing so explosively? Drawing on in-depth interviews with leaders and participants, *The Rise of Network Christianity* explains the social forces behind the fastest-growing form of Christianity in the U.S., which Brad Christerson and

Richard Flory have labeled "Independent Network Charismatic." This form of Christianity emphasizes aggressive engagement with the supernatural-including healing, direct prophecies from God, engaging in "spiritual warfare" against demonic spirits--and social transformation. Christerson and Flory argue that macro-level social changes since the 1970s, including globalization and the digital revolution, have given competitive advantages to religious groups organized as networks rather than traditionally organized congregations and denominations. Network forms of governance allow for experimentation with controversial supernatural

practices, innovative finances and marketing, and a highly participatory, unorthodox, and experiential faith, which is attractive in today's unstable religious marketplace.

Christerson and Flory hypothesize that as more religious groups imitate this type of governance, religious belief and practice will become more experimental, more orientated around practice than theology, more shaped by the individual religious "consumer," and authority will become more highly concentrated in the hands of individuals rather than institutions. Network Christianity, they argue, is the future of Christianity in America.

Prophecy remains one of the ambiguities that need to be

unlocked by critical philosophical thinking. The historicity of prophecy has suffered massive debates by different learned personages with some seeking to discredit the authenticity of the prophetic phenomena. Of central import is the African form of prophecy which, scholars tend to disagree over its roots, authenticity and historicity with much research being given to prove or disprove prophetic authority. This author seeks to prove the authentic standing of prophecy, with specific reference being attributed to the prophetic typology evident in the African prophetic circles. However, constant reference will be made to Israelite prophetic typology, origins and
