Guidelines The RCOG produces guidelines as an aid to good clinical practice. Our guidelines present recognised methods and techniques for clinical practice, based on published evidence, for consideration by obstetricians/gynaecologists and other relevant health professionals. Find out more about the different types of guideline we publish.

Guidelines - RCOG

mrcog guidelines now is not type of inspiring means. You could not unaided going in the same way as book hoard or library or borrowing from your friends to gate them. This is an unconditionally easy means to specifically get lead by on-line.

RCOG Green-top Guidelines – O&G @ SGH
Care guidelines from MCG provide fast
access to evidence-based best practices
and care-planning tools across the
continuum of care, supporting clinical
decision-making and documentation as well
as enabling efficient transitions between
care settings. Data analysis provides
insight into critical benchmarks such as
length of stay, re-admissions, and skilled
nursing facility/inpatient rehabilitation
admission rates.

RCOG Guidelines – Apps on Google Play
Royal College Of Obstetricians & Gynaecologists have released guideline for Antenatal Corticosteroids to Prevent Neonatal Morbidity and Mortality whose aim is to provide up-to-date information on the appropriate use of antenatal corticosteroid therapy in women whose babies are at risk of complications owing to either preterm birth or elective caesarean section at term.

RCOG Guideline for use of Antenatal Corticosteroids

Guidelines Key points for health professionals Group B Streptococcus (GBS or group B Strep) is the most common cause of severe infection in newborn babies, and of meningitis in babies under age 3 months. On average in the UK: • 2 babies a day develop group B Strep infection • 1 baby a week dies from group B Strep infection

Updated Group B Strep Guidelines

This guideline comprises recommendations relating to the diagnosis, assessment, care and timing of birth of women

presenting with suspected PPROM from 24 +0 to 36 +6 weeks of gestation. It also addresses care in a subsequent pregnancy.
