Music seems to be a key to identity because it offers, to intensely, a sense of both self and the collective. Social groups only get to know themselves as groups (as a particular organization of individual and social interests, of sameness and differences) through cultural activity and in this case it would be music.

Identity Through the Eyes of Music | DiggIt Magazine

Pop music lasts. A form all too often assumed to be transient, commercial and mass-cultural has proved itself durable, tenacious and continually evolving. As such, it has become a crucial component in defining various forms of identity (individual and collective) as influenced by nation, class, gender and historical period.

Pop Music, Culture and Identity | Steve Clark | Springer

As the American Academy of Pediatrics states, young people use music to form a collective identity. Music influences and molds them as a whole and it is the base of their collective identity. This makes young people the most influential in determining what ultimately becomes popular.

Influence of Music on Culture and the Individual

Music is a constitutive part of culture and hence is important for individual and social identity formation. It can serve as a space and practice that binds group

members together, so that they understand themselves as belonging to each other and maybe even having a specific task or mission to accomplish.
