Just about everyone who came of age during the 1960s, 70s, and 80s was influenced by MAD MAGAZINE, and no one at MAD was more influential than “MAD’s MADdest Artist,” Don Martin. His immediately recognizable style--featuring bulbous noses, wild sound effects, and the legendary “hinged feet”--was filled with broad and daring slapstick and routinely broke new ground. A surprisingly quiet man, Martin’s work spoke volumes as he left an indelible mark on several generations, influencing the style of many illustrators while shaping the sense of humor of countless misguided youths. He was inducted into the Comic Book Hall of Fame in 2004. Says Gary Larson, creator of The Far Side: “Don Martin was the one who really stood out.”Now, it is with great pride that Running Press, in collaboration with MAD, launches the MAD’s Greatest Artists: The Completely MAD Don Martin (MAD’s Greatest Artists Series). For the first time ever, here is the complete collection of every piece of art Don Martin published in MAD throughout his extraordinary thirty-year tenure (1957-1987). With all of Martin’s strips, covers, posters, and stickers--presented in chronological order--it is nothing less than a masterpiece of comic genius. Complementing Martin’s opus of published works are letters, sketches, and rare photos providing an in-depth look at the artist at work. Plus, scattered throughout are notes and original illustrations--commissioned for this volume--paying tribute to the artist and penned by MAD’s most-notable personalities, including Al Jaffee, Mort Drucker, Jack Davis, Sergio Aragonés, and more. There are also notes by the likes of Jim Davis (Garfield) and a foreword by Gary Larson. A collector’s item and object d’art in its own right, this deluxe two-volume slipcased edition will be the season’s must-have gift book for the millions whose childhoods--and subsequent adulthoods--would not have been the same without MAD MAGAZINE and Don Martin. FORENSIC INVESTIGATOR Geoff Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in 1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out – and which it was impossible for him to forget. Geoff’s day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther Mckay, fellow forensic investigator and author of the best-selling Crime Scene, heard that Geoff has been awarded maximum compensation for his suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

‘Interspersed with acts of breathtaking linguistic daring.’ Charlotte Mendelson, Observer
Book of the Year Opening with a powerful and tender ‘Ode to the Hymen’, Sharon Olds uses this age-old poetic form to address many aspects of herself, in a collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as ‘Ode to My Sister’, ‘Ode of Broken Loyalty’, ‘Ode to My Whiteness’, ‘Blow Job Ode’, ‘Ode to the Last 38 Trees in New York City Visible from This Window’, Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her - the ‘Sheffield Mountain Ode’ for Galway Kinnell is one of the most stunning pieces here - Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

**When Halley’s Comet blazed across the sky in 1759, onlookers saw a sight far more spectacular—and disastrous—than they ever could have imagined. Destroyed in a magical battle, the comet is rent in two and appears to strike Earth. The event is known as The Sundering, the moment in which the Old World is separated from the New, perhaps permanently isolating the Americas. What’s more, The Sundering has brought magic into the world—creatures from folklore and fairy tales come to life, along with wizardry and magework unlike anything seen outside of legend. The New World is now far stranger than before, and the Europeans, Africans, and Indigenous peoples on the American continent must forge new bonds if they are to survive. So, when magic returns to the world of the 1700s, who does the world turn to for help? None other than the father of electricity himself: Benjamin Franklin! But Franklin is in for a shock if he thinks his knowledge of science will prepare him for the world of magic. The master once more becomes the apprentice. But Franklin must learn his spells fast, for he is far from the only one studying magic. In point of fact, he’s late to the race and almost out of time . . . MODX is an advanced Open Source Content Management System (CMS). If you are not familiar with the term CMS, think of a word processor for web sites, but on steroids. A CMS will usually provide you with a graphical view of your web site, a database that stores the site’s content, and one or more editors for creating web pages and populating them with links, lists, headings, and formatted text.This book is perfectly suitable for MODX beginners but contains plenty of in-depth information for power users as well. If you are brand new to MODX, some parts of the book may go over your head the first time you read them. Over time, however, you will grow more familiar with how MODX works, and they will gradually begin to make sense to you.

This book contains reproductions of the famous Cottingley photographs, and gives the whole of the evidence in connection with them. The diligent reader is in almost as good a position as I am to form a judgment upon the authenticity of the pictures. This narrative is not a special plea for that authenticity, but is simply a collection of facts the inferences from which may be accepted or rejected as the reader may think fit. I would warn the critic, however, not to be led away by the sophistry that because some professional trickster, apt at the game of deception, can produce a somewhat similar effect, therefore the originals were produced in the same way. There are few realities which cannot be imitated, and the ancient argument that because conjurers on their own prepared plates or stages can produce certain results, therefore similar results obtained by untrained people under natural conditions are also false, is surely discounted by the intelligent public. I would add that this whole subject of the objective existence of a subhuman form of life has nothing to do with the larger and far more vital question of spiritualism. I should be sorry if my arguments in favour of the latter should be in any way weakened by my exposition of this very strange episode, which has really no bearing upon the continued existence of the individual.

New York Times bestselling author, Food Network star, and The Pioneer Woman herself, Ree Drummond brings us the first book in a brand-new picture book series! In Ree's own words: "I was all grown up when I moved out to the country. When I first arrived, I felt so out of place! But eventually, I looked around and discovered all the wonderful things about country life. So I decided to write a story about my experiences, as seen through the eyes of a little girl named Ree. Little Ree moves to the country and feels as scared and unsure as I was. But then she finds that if she sets her mind to it, being a country girl is a pretty cool thing. Come along on her adventures!" Little Ree trades in her city days for a country way of life when she moves with her family to her grandparents' ranch. She's excited to ride horses, swim in the pond, and help Grandma cook for everyone. But on her first day, she finds that living on a ranch can be tough. She has to get up at the crack of dawn, learn to herd cows, and make sure her horse, Pepper, doesn't eat everything in sight. And that's all before breakfast! Will she ever get used to this new place? Luckily, the end of the day brings a big family barbecue...and the happy discovery that being a country girl isn't about the right pair of boots, it's all about the right attitude. With warmth, humor, and stories inspired by life on the ranch, Ree Drummond's new picture book introduces us to a spunky new picture book star and treats us to a special pancake recipe at the end!

A stunning and lyrical debut novel Vincent Appleton smiles at his daughters, raises a gun, and blows off his head. For the Appleton sisters, life had unravelled many times before. This time it explodes. Eight-year-old Harriet, known to all as Ari, is dispatched to Cape Breton and her Aunt Mary, who is purported to eat little girls. But Mary and her partner, Nia, offer an unexpected refuge to Ari and her steadfast companion, Jasper, an imaginary seahorse. Yet the respite does not last, and Ari is torn from her aunts and forced back to her twisted mother and fractured sisters. Her new stepfather, Len, and his family offer hope, but as Ari grows to adore them, she's severed violently from them too, when her mother moves in with the brutal Dick Irwin. Through the sexual revolution and drug culture of the 1960s, Ari struggles with her father's legacy and her mother's addictions, testing limits with substances that numb and men who show her kindness. Ari spins through a chaotic decade of loss and love, the devilish and divine, with wit, tenacity, and the astonishing balance unique to seahorses. The Clay Girl is a beautiful tour de force about a child sculpted by kindness, cruelty, and the extraordinary power of imagination, and her families „ the one she's born in to and the one she creates.
