The book presents a new focus on the legal philosophical texts of Aristotle, which offers a much richer frame for the understanding of practical thought, legal reasoning and political experience. It allows understanding how human beings interact in a complex world, and how extensive the

complexity is which results from humans' own power of self-construction and autonomy. The Aristotelian approach recognizes the limits of rationality and the inevitable and constitutive contingency in Law. All this offers a helpful instrument to understand the changes globalisation imposes to legal experience today. The contributions in this collection do not merely pay attention to private virtues, but focus primarily on public virtues. They deal with the fact that law is dependent on political power and that a person can never be sure about the facts of a case or about the right way to act. They explore the assumption that a detailed knowledge of Aristotle's epistemology is necessary, because of the direct connection between Enlightened reasoning and legal positivism. They pay attention to the concept of proportionality, which can be seen as a precondition to discuss liberalism.

Linda S. Kauffman turns the pornography debate on its head with this audacious analysis of recent taboo-shattering film, and performance art. Investigating the role of fantasy in art, politics, and popular culture, she shows how technological advances in medicine and science (magnetic resonance imaging, computers, and telecommunications) have profoundly altered our concepts of the human body. Cyberspace is producing new forms of identity and subjectivity. The novelists, filmmakers, and performers in *Bad Girls and Sick Boys* are the interpreters of these brave new worlds, cartographers who are mapping the fin-de-millennium environment that already envelops us. *Bad Girls and Sick Boys* offers a vital and entertaining tour of the current cultural landscape. Kauffman boldly connects the dots between the radical artists who shatter conventions, challenge legal and aesthetic conventions. She links writers like John Hawkes and Robert Coover to Kathy Acker and William Vollmann; filmmakers like Ngozi Onwurah and Isaac Julien to Brian De Palma and Gus Van Sant; and performers like Carolee Schneemann and Annie Sprinkle to the visual arts. Kauffman's lively interviews with J. G. Ballard, David Cronenberg, Bob Flanagan, and Orlan add an extraordinary dimension to her timely and convincing argument.
