Ocean Governance for Sustainability - Challenges, Options ...

The joint communication is an integral part of the EU's response to the United Nations' 2030 Agenda for Sustainable Development, in particular Sustainable Development Goal 14 'to conserve and sustainably use the oceans, seas and marine resources'. It is based on the political mandate given to Commissioner Vella by President Juncker 'to engage in shaping international ocean governance in the UN, in other multilateral fora and bilaterally with key global partners'.

International ocean governance: an agenda for the future ...

Through #SDG14, the world has committed to sustainable use of oceans, seas and marine resources. UNDP supports #SDG14 by promoting sustainable and inclusive fishing, applying area-based ocean and coastal management, reducing marine pollution and increasing and strengthening marine protected areas. The significant socio-economic benefits provided by the earth's freshwater and marine systems underscore the need to take adaptive, integrated, ecosystem-based approaches to the management of ...

White Paper June 2018 World Ocean Council

The ocean covers more than 70 % of the planet and is a vital support system for all life – but both coastal areas and the high seas are under threat. Currently a lack of information, especially regarding the understudied Areas Beyond National Jurisdiction (ABNJ), is hindering protection of these precious regions.

PROG – Partnership for Regional Ocean Governance

Ocean governance is the conduct of the policy, actions and affairs regarding the world's oceans. Within governance, it incorporates the influence of non-state actors, i.e. stakeholders, NGOs and so forth, therefore the state is not the only acting power in policy making. However, in terms of the ocean, this is a complex issue because it is a commons that is not 'owned' by any single nation/state. The consequences of this has resulted in humankind abusing the oceans' resources, by ...

#### Ocean governance - Wikipedia

International ocean governance includes the processes, agreements, rules, institutions, etc. developed to organise the way in which humans use the ocean and its resources. Not including the territorial waters of countries, ocean governance relates to the High Seas and international seabed "Area" which support vital biological resources. However, because they are beyond the remit of any single government to protect, they are subject to overexploitation, pollution and habitat degradation ...
