Mediterranean Sea | Facts, History, Islands, & Countries ...

The Mediterranean Sea is a large body of water with Europe to the north, northern Africa to the south, and southwestern Asia to the east.

The narrow Strait of Gibraltar to the west is the only outlet to the Atlantic Ocean. Its total area is 970,000 square miles, and its greatest depth is off the coast of Greece, where it is 16,800 feet deep.

From Prehistory To Ad 1500

Panropa, was a gigantic engineering and colonisation idea that was devised by the German architect Herman Sörgel in the 1920s and promoted by him until his death, in 1952. Its central feature was a hydroelectric dam to be built across the Strait of Gibraltar, which would have provided enormous amounts of hydroelectricity and would have led to the lowering of the surface of the Mediterranean Sea by up to 200 metres, opening up large new lands for settlement ...

The Mediterranean and the Atlantic

| History Today

The Mediterranean Sea is a sea

located in the Atlantic Ocean that

lies between the continents of

Europe and Africa and is almost

completely enclosed by land. It is

Access Free On The Ocean The Mediterranean And The Atlantic From Prehistory To Ad 1500

bounded in the north by Europe, in the south by Africa and in the east by Asia; and it joins the Atlantic Ocean through the Strait of Gibraltar.

Mediterranean Sea | What it is, characteristics, history ...

The Mediterranean Sea has played an important role throughout history, enabling the exchange of culture and trade between the continents. This voyage of discovery includes six sightseeing tours, and visits some of the region's most fascinating archaeological sites and monuments.
