 The Client Installation Guides cover the simplified install for just the Oracle client software, which lets you connect to a database running on a different system, using a database application or the interactive SQL\*Plus tool.

Oracle Database Online Documentation 10g Release 2 (10.2)  
 By default, the standard Oracle Database 10 g software installation process installs the Oracle RAC option when OUI recognizes that you are performing the installation on a cluster. OUI installs Oracle RAC into a directory structure that is referred to as Oracle\_home. This home is separate from the home directories of other Oracle software products installed on the system.

Installing and Configuring Oracle Clusterware and Oracle RAC  
 DBUA can upgrade 9.x and 10.1 Oracle RAC databases, and can upgrade 10.1 Oracle RAC databases using ASM to 10.2. It can also upgrade ASM 10.1 to ASM 10.2 The Oracle Database 10 g installation process provides single system image, ease of use, and accuracy for Oracle RAC installations and patches.
