Physics Answers | Sante Blog
The experiments demonstrate
Newton's first law because the
fans act as the unbalanced
force. If the fan is blowing in
one direction, it will make the
cart accelerate, and if there are
two fans blowing in opposite
directions, the cart will remain
at a constant velocity because
it is a balanced force.***

Physics answers, Physics, Conceptual understanding. Jun 21, 2013 - Gain an understanding of Newton's Laws by experimenting with a cart (on which up to three fans are placed) on a linear track. The cart has a mass, as does each fan. The fans exert a constant force when switched on, and the direction of the fans can be altered as the position, velocity, and acceleration of the cart are measured.
