MICHAEL WILCOX is not well-known but he had a very distinguished career in the police service, starting as a constable in the City of Bristol Police and ending as the Chief Constable of Hertfordshire. The death of his father meant that he left school early, but his shortened education did not stop him applying to Lord Trenchard's new Police College established in Hendon in 1934. His success in the entrance exam required him to transfer to the Metropolitan Police. In 1943, by then an Inspector, he volunteered for the Civil Affairs unit of the Allied Armies. He landed at Salerno and set about 'liberating' towns in southern Italy. He was rapidly promoted to Lieutenant Colonel and found himself doing the lion's share of the work in attempting to reorganise the Italian Police. In the immediate aftermath of the war, he played a key role in the policing of occupied Vienna. On demobilisation he became the deputy Chief Constable of Buckinghamshire and then, after six months, the Chief Constable of Hertfordshire. He served in Herts for the next 22 years. Several of his friends and fellow graduates from Hendon moved on to senior posts in the Metropolitan Police and the Inspectorate of Constabulary. Wilcox had written to his wife during his Army service saying that being a Chief Constable was his ambition as it would allow him to look after her and their children. On retirement he enjoyed a link with the new Criminology Institute at Cambridge publishing a small book on prosecution which is still well regarded. He also took on a variety of temporary posts for the Home Office. This is the story of a man who never pushed himself forward: family was as important to him as the job. Nevertheless, he rose through the ranks by demonstrating his ability and a strong commitment to his role. As Chief Constable he appears to have been popular and respected by those who served under him: while he, in turn, made their welfare a key consideration. Love them or hate them, the tweets of President Donald J. Trump rule the Twitterverse. Until our last presidential campaign, television, particularly campaign ads, dominated the political landscape. But with the rise of Donald J. Trump came a new political tool: the internet. Trump used this to communicate instantly and very effectively with the American people. And it worked. Establishing his political positions by tweeting numerous times a day, Trump pulled a major upset by defeating Hillary Rodham Clinton to become the 45th president of the United States. Once in office, Trump did not abandon his penchant for using Twitter as his populist platform. Instead, he doubled down on it, making it his primary means of communicating with the American people. Knowing how effective a tweet can be, Trump once wrote, 'Boom. I press it and within two seconds we have breaking news.' With a massive Twitter following of 78 million by the spring of 2020, Trump's direct impact upon Americans cannot be dismissed, nor can the value of his tweets as an essential part of the historical record be denied. To put the enormous impact of his tweets into perspective, Trump won the White House with 63 million votes—a number significantly lower than his massive Twitter following. Now you can read the collected tweets of wisdom—or ridiculousness—from President Donald J. Trump, from his inauguration through February 2020 in this historically significant collection.

Criminology Explains Police Violence offers a concise and targeted overview of criminological theory applied to the phenomenon of police violence. In this engaging and accessible book, Philip M. Stinson, Sr. highlights the similarities and differences among criminological theories, and provides linkages across explanatory levels and across time and geography to explain police violence. This book is appropriate as a resource in criminology, policing, and criminal justice special topic courses, as well as a variety of violence and police courses such as policing, policing administration, police-community relations, police misconduct, and violence in society. Stinson uses examples from his own research to explore police violence, acknowledging the difficulty in studying the topic because violence is often seen as a normal part of policing.

The television spectacles of Oka and the Rodney King affair served to focus public disaffection with the police, a disaffection that has been growing for several years. In Canada, confidence in the police is at an all-time low. At the same time crime rates continue to rise. Canada now has the dubious distinction of having the second highest crime rate in the Western world. How did this state of affairs come about? What do we want from our police? How do we achieve policing that is consistent with the Charter of Rights and Freedoms? The essays in this volume set out to explore these questions. In their introduction, the editors point out that constitutional order is tied to the exercise of power by law enforcement agencies, and that if relations between the police and civil society continue to erode, the exercise of force will rise - a dangerous prospect for democratic societies.

Contemporary police service delivery and performance are complex phenomena. Law enforcement, particularly at the local level, must therefore face the additional challenges of globalization, cybercrime, counter-terrorism and calls for reform, at a time when extreme budgetary constraints are being implemented. Policing operations encompass multiple critical tasks and responsibilities not routinely measured and evaluated, such as response to incidents involving medical assistance, homelessness, mental illness, community engagement, and neighborhood problem-solving endeavors. This volume aims to provide government, criminal justice and policing administrators, policy makers and criminal justice scholars and researchers with comprehensive analyses of the critical issues impacting the challenges inherent in providing effective public safety, security and service, all from a global perspective. It takes into account popular criticism, extreme budgetary constraints, and the relatively novel and overwhelming challenges of terrorism and cybercrime. The book merges study and practice to identify avenues to best serve community interests, ensure organizational success, and enhance public confidence in policing and in rule of law.

Written from the point of view of the child of a female police officer, My Mum the Police Officer follows a day in the life of their mother - and how it makes them feel. The story begins at the start of the officer's day and focuses on the many varied tasks a police officer might do over the course of their shift.

With a strong focus on problem solving and community-police partnerships, Miller, Hess, and Orthmann's comprehensive text provides a practical, up-to-date guide to effective community policing. After introducing the history and philosophy of the movement that has profoundly shaped modern police operations, the authors emphasize practical strategies and essential skills to help readers apply effective, real-world problem solving within their communities. In light of high-profile deadly force incidents that have strained the relationships between the community and the police, this edition taps into the recommendations in the Final Report of the President's Task Force on 21st Century Policing and its call for a renewed emphasis on community policing to strengthen public trust and build police legitimacy. And the MindTap that accompanies the text helps students master techniques and key concepts while engaging them with career-based decision-making scenarios, visual summaries, and more. The Rowman & Littlefield Handbook of Policing, Communication, and Society brings together well-regarded academics and experienced practitioners to explore how communication intersects with policing in areas such as cop-culture, race and ethnicity, terrorism and hate crimes, social media, police reform, crowd violence, and many more. By combining research and theory in criminology, psychology, and communication, this handbook provides a foundation for identifying and understanding many of the issues that challenge police and the public in today's society. It is an important and comprehensive analysis of the enormous changes in the roles of gender in society, digital technology, social media, and organizational structures have impacted policing and public perceptions about law enforcement.

Authors Franklin and Hain have witnessed firsthand difficulties experienced in some black communities. They use their knowledge to analyse and discuss the interactions between American policing, a subculture of the black community and the BLM movement. The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men. It describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements, outbursts, and demonstrations. It begins with an examination of the differences between the black and white communities; how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another. Because of civil rights efforts American policing is going through a transformation. A change in policing tactics must be met with a re-evaluation of some cultural norms by the black community. They also discuss the lack of support by blacks shown to other blacks when there is an impression of being "not black enough." The authors believe in political correctness, but also believe that political correctness is harming the black community, because well-recognized negative issues in some communities are not being addressed to avoid criticism of black culture. In the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself. Finally, the authors believe that American policing understands its 21st century obligations and is taking steps to meet them.

Drawing on compelling current examples, Governing Health is a timely and essential book.

Shared Challenges and Successes in the Integration of Women Police Worldwide

Women Policing across the Globe provides a cross-cultural comparison of the integration of women in policing across the globe, paying special attention to the unique contributions that women make to the field, along with the shared challenges and resistance they face. Individual chapters within the book provide students with a snapshot of the status of women in modern police agencies in the countries of the United States, Kuwait, China, the United Kingdom, Australia, the United Arab Emirates, and Taiwan. However, shared issues and successes of women police in many more countries worldwide are discussed throughout the entire book. This book allows students to explore the different origins of entry, specialized roles, their experiences of resistance, and effects of historical events that have shaped the experiences of modern women police from across the world. The authors discuss the new gains women are making, despite the obstacles they face, and ways they are transforming how policing is done every day. And, finally, this book closes with collective issues and successes faced by women police worldwide.

This book offers a new look at international security management combining practical applications and theoretical foundations for new solutions to today's complex security and safety challenges. The book's focus on safety as a positive experience complements the traditional approach to safety as risks and threats. In addition, its multi-stakeholder, multi-disciplinary, international and evidence-based approach provides holistic and timely insights for the field. Topics raised in this book focus on the crucial questions of: Who is safety actually for? (and) How can sustainable safety solutions be jointly created? This book provides comprehensive insights into the latest research findings, practical applications and suggestions for dealing with challenges in international security management in integrated and sustainable ways, making it relevant reading for practitioners, as well as academics and students - with a view to obtaining thorough, first-hand knowledge from serving experts in the field. We explore new ways of working with citizens, police and policymakers in order to co-create safety. This book emphasises the importance of safety as a topic that matters for all. "Safety and security are basic pillars for the development of our society. However, the number of areas, actors and procedures involved in the management of the different elements composing the international security eco-system, its coordination and alignment, make it a challenging issue to resolve. This book provides a fresh new approach to this complex issue, in which we all have a role to play." Fernando Ruiz, Acting Head of European Cyber-Crime Centre - Europol "A very timely analysis that brings a much-needed international perspective to the field of security management. The authors explore the challenges confronting security management in a complex and connected world and generate new ideas to support practice and inspire research." Professor Mark Griffin; John Curtin Distinguished Professor, Curtin University; Director, Future of Work Institute "This book presents the role of International Security Management in the 21st century in an innovative way." Dr. Christian Endreß, Managing Director, ASW Bundesverband - German Association for Security in Industry and Commerce

This textbook addresses existing gaps in police research, education, and training, and provides guidance on how to respond to and address the vulnerability that arises in policing practice. It guides students through the conceptual and also the practical issues of managing vulnerability in policing with case studies and practitioners' views from the UK, Australia, New Zealand, South Africa, the US, Canada, France, and beyond to the Maldives, China, India, Pakistan, and Sri Lanka. It includes key concepts, views from the front-line, further reading and activities in each chapter. Policing Practices and Vulnerable People is aimed at researchers and practitioners working with police.

While focussed on democratic policing practices, this book includes case studies and practitioners' views from a wide range of approaches, including those from the Global South. This book provides readers with a framework that can assist them in converting conceptual knowledge to critical, ethical policing practices.

This text comes with being a first responder has been known to lead to depression, anxiety, substance abuse, and suicide. However, few clinicians are informed about these health concerns and how to adequately treat them in this population. Therefore, there is an urgent need for practitioners to understand the latest information regarding treatments that will be helpful to this specific population. Mental Health Intervention and Treatment of First Responders and Emergency Workers is an essential reference source that focuses on the latest research for diagnosing and treating mental health issues experienced by emergency personnel and seeks to generate awareness and inform clinicians about the unique circumstances encountered by these professionals. While highlighting topics including anxiety disorders and stress management, this book is ideally designed for clinicians, therapists, psychologists, psychiatrists, practitioners, medical professionals, EMTs, law enforcement, fire departments, military, academicians, researchers, policymakers, and students seeking current research on psychological therapy methods regarding first responders.

This Review has established that the police service is currently ill-equipped to respond to possible and probable changes in increasingly specialised crime trends, political accountability, financial resources and the demographics of its workforce. This report covers reforms that may be introduced in the longer term. An earlier report on reforms that could be introduced in the short term published in March 2011 (Cm. 8024, ISBN 978011020420) and made recommendations for savings of £1.1 billion over 3 years, most of which are being implemented following a determination of the Police Arbitration Panel. This report makes recommendations which could realise gross savings of £1.9 billion with £1.2 billion reinvested in policing. The 121 recommendations cover: employment framework, entry route and promotion; health, fitness and managing the workforce; basic pay, contribution-related pay and role-based pay; negotiating machinery. Each chapter contains a recommended phased process for introduction. The recommendations will provide the police service with the ability to attract and retain high calibre candidates with different skills and experiences, to maintain operational resilience by maximising the deployment of fit and healthy officers, and to manage office numbers according to need and in the public interest. Entry into the police service and advancement within would be according to the sole criterion of merit. The recommendations for reform of the police review apparatus will have a profound effect, establishing a well-resourced professional pay review body ensuring that officers' pay is determined on sound evidence.

Unrivaled in its simplicity and skill-building pedagogy, Harr, Hess, Orthmann, and Kingsbury's text thoroughly explains the complexities of the U.S. Constitution and the criminal justice system. The text avoids legalese and is packed with real-world examples. Its pedagogical framework helps readers develop a solid understanding of key issues and concepts, and more than 200 practice cases are introduced in a non-intimidating manner. The text devotes considerable time to the Fourth and Fifth Amendments, exploring their application to such issues as reasonable search and seizure, double jeopardy, and testifying against oneself. CONSTITUTIONAL LAW AND THE CRIMINAL JUSTICE SYSTEM, 7th Edition includes expanded discussions of the First and Second Amendments as well as cutting-edge coverage of immigration, terrorism and homeland security, electronic surveillance and the use of drones, use of force, and searches of cell phones and other digital evidence. Workplace spirituality is an emerging field of study and practice and this book asks the questions: Where have we been in the last ten years and where should we be headed in the next ten years? The editors asked these questions of thought leaders from around the globe, leaders who represent different sectors, faith traditions, worldviews and organizational functions. This volume represents the best of current thinking about the state of the field of workplace spirituality and of what the future holds. There are four themes: (1) management themes such as leadership, ethics, change management, and diversity; (2) workplace spirituality in sectors such as health and wellbeing, policing and creative industries, (3) key issues that are emerging, such as self-spirituality, mindfulness, storytelling and the importance of nature, and (4) cutting edge epistemologies and methodologies including indigenous studies, relational ontology, ethnography, and psychodynamics. These articles were chosen to provoke new thinking, new research, and new practice in the field of workplace spirituality, with the goal of helping the field mature in the next decade.

Ethics and Canadian Law Enforcement offers a comprehensive overview of law enforcement decision-making procedures in Canada, and evaluates the ethical conduct expected of law enforcement personnel, such as police officers, sheriffs, correctional officers, and private security. Dr. Richard Parent, a police officer for more than 30 years, draws on his professional experience to examine codes of conduct, internal investigations, misconduct and discipline, and the purpose of the civilian review. This text provides an exceptional overview of the theories, personal morals, values, and tenets of professionalism that lay the foundation for ethical decision-making. Selected topics examine the use of force; on and off-duty challenges; issues of accountability and oversight; the application of issued firearms; diversity in the law enforcement workforce; and the considerations that are unique to law enforcement policies within Indigenous communities. This accessible resource, which features boxed examples, chapter summaries, key terms, self-evaluation questions, and critical thinking exercises, is ideal for college and university students enrolled in police foundation and criminal justice programs, as well as law enforcement training agencies.

This book presents a powerful and thorough investigation into police deviance and sexual misconduct in the US. Drawing on news reports, official government press releases and academic research sources, Barker examines a wide array of cases including sexual harassment, sexual abuse, child molestation and police killings, including those of prisoners behind bars. Substantiated with additional cases from the UK, Russia and beyond, analysis is also conducted of the experiences of the victims of those crimes. Aggressors in Blue argues that this misconduct has its roots in the nature of the law enforcement occupation, and outlines the typical conditions which enables police sexual abuse to take place. This is a bold new investigation which speaks to students and academics in criminal justice, criminology and social justice in particular, as well as to scholars, social justice advocates, law enforcement professionals, policy-makers and academics in other related disciplines.

The death of Michael Brown at the hands of a white Ferguson police officer has uncovered an apparent legitimacy crisis at the heart of American policing. Some have claimed that de-policing may have led officers to become less proactive. How exactly has the policing of gangs and violence changed in the post-Ferguson era? This book explores this question, drawing on participant observation field notes and in-depth interviews with officers, offenders, practitioners, and community members in a Southern American state. As demands for police reform have once again come into focus following George Floyd's death, this crucial book informs future policing practice to promote effective crime prevention and gain public trust.

This book explores the everyday policing of immigration officers and police officers in charge of inland border controls in the United Kingdom. It looks at migration policing in terms of a globalized world and how that presents new demands and challenges on those who enforce it. This book aims to advance understanding of border law enforcement.

A high school honors student with no police record encounters the police outside his home. He emerges from the confrontation bruised and beaten. The police charge him with serious crimes; he swears he did nothing wrong. When the story becomes public, an American city faces protests, deep division and a long quest for justice. "City Divided" tells the story of the case involving 18-year-old Jordan Miles and three Pittsburgh Police officers. The book takes an in-depth look at the opposing stories, and at race and the fear it incites, to find answers. What happened between the police and the teen, and what went wrong? Can the courts respond with a just solution? And how can we prevent these tragedies in the future?
