and bound by a remarkable, unbreakable love," Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In *Beautiful Things*, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life.

Based on unprecedented access, including stunning interviews with nearly every host, award-winning journalist Ramin Setoodeh takes you backstage where the stars really spoke their minds. Here's the full story of how Star, then Rosie, then Whoopi tried to take over the show, while Barbara struggled to maintain control of it all, a modern-day Lear with her media-savvy daughters. Eyetracking Web Usability is based on one of the largest studies of eyetracking usability in existence. Best-selling author Jakob Nielsen and coauthor Kara Pernice used rigorous usability methodology and eyetracking technology to analyze 1.5 million instances where users look at Web sites to understand how the human eyes interact with design. Their findings will help designers, software developers, writers, editors, product managers, and advertisers understand what people see or don't see, when they look, and why. With their

comprehensive three-year study, the authors confirmed many known Web design conventions and the book provides additional insights on those standards. They also discovered important new user behaviors that are revealed here for the first time. Using compelling eye gaze plots and heat maps, Nielsen and Pernice guide the reader through hundreds of examples of eye movements, demonstrating why some designs work and others don't. They also provide valuable advice for page layout, navigation menus, site elements, image selection, and advertising. This book is essential reading for anyone who is serious about doing business on the Web. Bauhaus Imaginista is a major international project marking the

centenary of this fascinating and popular school, which championed the idea of artists working together as a community. The Bauhaus reconnected art with everyday life, and was active in the fields of architecture, performance, design and visual art. Its original teachers included such renowned figures as Paul Klee, Wassily Kandinsky, Laszlo Moholy-Nagy and Josef Albers. Placing a rare emphasis on the international dissemination and reception of the Bauhaus, this book accompanies a touring exhibition, and presents four chapters that extend from Bauhaus education to the school's diverse history beyond Europe. Rethinking the Bauhaus school from a global perspective, it sets the school's entanglements against a century of geopolitical

change. The reader is taken to art and design museums, campus galleries and art institutes in India, Japan, China, Russia, Brazil and the United States, as well as Berlin.

astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time. Future generations will look back on our epoch as the time when the human race finally broke into a radically new frontier—space. In Pale Blue Dot, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on

to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. "Takes readers far beyond Cosmos . . . Sagan sees humanity's future in the stars."—Chicago Tribune

In her hilarious book of essays, Parks and Recreation star Retta shares the stories that led to her success in Hollywood. In So Close to Being the Sh*t, Y'all Don't Even Know, Parks and Recreation star Retta takes us on her not-so-meteoric rise

from roaches to riches (well, rich enough that she can buy \$15,000 designer handbags yet scared enough to know she's always a heartbeat away from ramen with American cheese). Throwing her hard-working Liberian parents for a loop, Retta abandons her plan to attend med school after graduating Duke University to move to Hollywood to star in her own sitcom—like her comedy heroes Lucille Ball and Roseanne. Say what? Word. Turns out Retta might actually be on to something. After winning Comedy Central's stand-up competition, she should be ready for prime

time—but a fear of success derails her biggest dream. Whether reminiscing about her days as a contract chemist at GlaxoSmithKline, telling “dirty” jokes to Mormons, feeling like the odd man out on Parks, fending off racist trolls on Twitter, flirting with Michael Fassbender, or expertly stalking the cast of “Hamilton,” Retta’s unique voice and refreshing honesty will make you laugh, cry, and laugh so hard you’ll cry. Her eponymous sitcom might not have happened yet, but by the end of *So Close to Being the Sh*t*, you’ll be rooting for Retta to be the next one-

named wonder to take over your television. And she just might inspire you to reach for the stars, too.

Destiny or not, she'll take him any way she can get him... Ex-military operative Rowe Hardy deserves every last bad thing that happened to him on that final mission, especially the scars on his face. After all, it's his fault that he and the other guys on his team were kicked out of the Navy. Losing his hearing is his penance, same as being single forever. No woman would be interested in a half-deaf beast anyway. Especially not the beautiful new doctor in town...the one

he can't stop dreaming about. Dr. India Kingston didn't get the memo that Rowe is supposed to be repulsive. Her secret crush on the reclusive handyman is only heightened by his obvious scars—physical and emotional. But she fled big city medicine in favor of Superstition Springs where she hopes to reclaim lost pieces of herself after ending a bad relationship. Love should be the last thing on her mind. Until Serenity Force throws a love prediction into the mix, matching her with Rowe. How can he be her destiny when he's made it oh-so-clear he's not interested in

her? Beauty and the Beast is a fairy tale. Not reality. Unless you're in Superstition Springs. Small town military heroes—all swoon, no steam Welcome to Superstition Springs, the place where destiny is the ultimate matchmaker. All you have to do is believe.
