The PPK/S was developed following the enactment of the Gun Control Act of 1968 (GCA68) in the United States, the pistol's largest market. One of the provisions of GCA68 banned the importation of pistols and revolvers not meeting certain requirements of length, weight, and other "sporting" features into the United States.

***One of the most popular WALTHER
pistols in the Umarex range has been
improved: The Walther PPK/S with a
metal slide now has a new piercing
mechanism for the CO₂ cartridge – it's
invisible when the gun is seen in profile.
The required Allen key is part of the grip
plate and is therefore always at hand.
The heavy slide generates a noticeable
blowback effect.***
