The emphasis on pastoral freedom is nearly
spent?and found wanting. Many caregivers today
are seeking to balance such freedom with a sense of
God's transcendence and communal order, which
entail personal and ritual formation. In Underwood's
resulting spirituality, the soul of pastoral care is

prayer. The substance is Scripture, studied in both liturgical and personal settings. The evangelical principle is reconciliation. Baptism lays the foundation for pastoral care by providing the paradigm for all transformations. Eucharist constitutes the eschatological horizon for pastoral care as ministry in the human encounter of God's presence. This winsomely written book stands at the forefront of a broad movement among scholars and clergy in nonliturgical traditions that aims at retrieving explicitly religious resources?the means of grace. The result is a rare, truly ecumenical

contribution to pastoral care, which deepens practice by providing a vision and a spirituality.

Discusses the creation a national school of Islamic law in Indonesia. Presents a complex range of references for syariah including the formal structures of a 'new fiqh', philosophies of law, transmissions of syariah through tertiary curricula and the Friday sermon in mosques, a bureaucratic form for conducting the Hajj, and contemporary debates on syariah values as expressions of public morality.

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic

portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may

take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of

enduring work. Based on the Ford Lectures given in Oxford in 1958, From Sheldon to Secker is a penetrating analysis of what Professor Sykes describes as the single 'most influential epoch of English church history between the Reformation and the Victorian age'. Professor Sykes draws upon the scholarship of a lifetime in assessing these developments, and these challenges, and From Sheldon to Secker remains essential, and engaging, reading for all students of what would now be called the long

eighteenth century.

The LNCS journal Transactions on Large-Scale Data and Knowledge-Centered Systems focuses on data management, knowledge discovery, and knowledge processing, which are core and hot topics in computer science. Since the 1990s, the Internet has become the main driving force behind application development in all domains.
