Psychology: A Very Short
Introduction: Butler, Gillian ...

Psychology: A Very Short
Introduction explores some of
psychology's leading ideas and
their practical relevance by looking
at normal and abnormal behaviour,
perception, attention, memory, and
intelligence. Psychology is part of
everyone's experience: it influences
the way we think about everything
from education and intelligence, to
relationships and emotions,
advertising and criminality.

Psychology: A Very Short
Introduction - Very Short ...

Human behaviour can only be properly understood if it is thought of as being directly or indirectly influenced by others. We change our behaviour if we are with others rather than alone (social facilitation). 'How do we influence each other? Social Psychology' looks at the influence of society on individual behaviour, considering issues such as leadership, obedience, prejudice, and conformity.
