Reflections On Architectural Practice In The Nineties

This book is a collection of discussions, autobiographical stories, thoughts and drawings through which the great architect Vittorio Gregotti questions what it means to practice the architectural profession today and what it once was. In the chapter Lo Stato delle Cose (The State of Things), the author recounts a series of biographical anecdotes that illustrate the radical change in the professional organisation of the project, which today has become "just a surprising communicative image ...

Eugene Kohn.

Reflections on architectural practices in the nineties ...

The design studio environment has remained the same throughout the past century. As the Studio Culture Task Force of the American Institute of Architecture Students (AIAS) (Koch et al., 2006) noted, the ongoing changes in architecture education are not aligned with today's fast-changing world, especially in the context of architectural practice. The AIAS analyzed the design studio problem and expressed doubts on the effectiveness of current studio practices in providing adequate design ...

Reflections on architectural practices in the nineties

Reflection is a cyclical process, meaning you grow and adapt. You should plan to draw on your own strengths and the best practice of colleagues, which you then apply to your own teaching. Try any of the reflection models listed in this unit to help you progress. By getting involved in a supportive network everyone will develop.

Getting started with Reflective Practice

Reflections on Architecture Research for Care and Health In the early summer of 2019, 120 researchers, architects, urban planners, and healthcare managers from across Europe, Asia, and the United States came together in Trondheim to participate in Building for better health, the 4th Architecture Research Care & Health (ARCH19) conference.
