Americans living under the shadow of the flashier, high-profile Triumph Twins, the equivalent BSAs were just as numerous and were exported all over the world. BSA was often seen as a less glamorous marque than Triumph or Norton, associated more with commuting and sidecars than coffee bar cowboys, but that doesn't detract from collectibility of its models today, as the bikos have become highly usable, enjoyable classics. Unlike the many marque histories available, this book is a practical guide to buying one of these bikes. It covers the complete range, from the very first 1946 50Occ A7 to the final 1973 65Occ A65. Chapters include what to look for (10min and 30 evaluations), spares prices; guides to auctions and paperwork; lists of useful contacts in the BSA community; and just as important, consideration of whether it's the right bike for you. One hundred colour photos, useful appendices and expert advice mean this book could save you thousands.

A practical, straightforward guide to buying a secondhand Triumph Bonneville, from the very first 1959 T120 pre-unit 650, to the very last T140 unit 750 machines built by L F Harris. What they're like to live with, spares availability and prices, plus point-by-point guide to buying a Bonnie. One hundred colour photos, useful appendices and expert advice mean this book could save you thousands.
