The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule’s purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

It is generally considered that the requirement of unanimity results in more hung juries than does the alternative system of requiring only a majority of jurors to agree on a verdict. What constitutes a majority differs between jurisdictions that have embraced the concept, and may also depend on the type of offence being tried. This Report examines arguments for and against preserving the unanimity rule.

Silas Marner is the third novel by George Eliot, published in 1861. An outwardly simple tale of a linen weaver, it is notable for its strong realism and its sophisticated treatment of a variety of issues ranging fromReligioio industrialisation to community.

The struggle of three brothers to stay together after their parent's death and their quest for identity among the conflicting values of their adolescent society.

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths--authenticity, persistence, kindness, gratitude, hope, humor, and so on--each of which exists in degrees. Character Strengths and Virtues classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement, causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested in psychology and what it can teach about the good life.

The Merchant of Venice

The Merchant of Venice has been performed more often than any other comedy by Shakespeare. Molly Mahood pays special attention to the expectations of the play's first audience, and to our modern experience of seeing and hearing the play. In a substantial new addition to the Introduction, Charles Edelman focuses on the play's sexual politics and recent scholarship devoted to the position of Jews in Shakespeare's time. He surveys the international scope and diversity of theatrical interpretations of The Merchant in the 1980s and 1990s and their different ways of tackling the troubling figure of Shylock.

This research asks: is jury decision-making fair? Specifically, it examines whether all-white juries discriminate against black and minority ethnic defendants, whether juries rarely convict on certain offences or at certain courts, whether jurors understand legal directions, are aware of media coverage or look for information on the internet about their cases. The empirical study involved over 1,000 actual jurors in three areas of the country and over 68,000 jury verdicts across all Crown Courts in England and Wales. The study found little evidence of jury unfairness but that jurors want and need better tools to understand the jury process.

Henry H. Mitchell` s great contribution to the study of preaching has been his insistence that the homiletical practices of the Black church are gifts to the whole church. Nowhere has he made this point more forcefully than in Celebration and Experience in Preaching. In this classic text he advocates a way of preaching that genuinely engages all aspects of the congregation` s attention, especially the ability to both understand and to feel the sermon` s message. In this revised edition Mitchell builds on this groundbreaking work by examining in greater depth the multiple ways in which we experience the preached word, by defining the different kinds of claim on the behavior of the hearer that biblical texts express, and by exploring various genres of sermon to discover the concrete manifestations of celebration and experience.

Warbreaker is the story of two sisters - who happen to be princesses, the God King one of them has to marry, a lesser god, and an immortal trying to undo the mistakes he made hundreds of years ago. Theirs is a world in which those who die in glory return as gods to live confined to a pantheon in Hallandren's capital city. A world transformed by BioChromatic magic, a power based on an essence known as breath. Using magic is arduous: breath can only be collected one unit at a time from individual people. But the rewards are great: by using breath and drawing upon the color in everyday objects, all manner of miracles and mischief can be performed. Brandon Sanderson proves again that he is a master of what Tolkien called 'secondary creation,' the invention of whole worlds, complete with magics and myths all their own.

Overwhelmed? Need a day off... a break? Maybe it's time to learn the truth about the Sabbath. Everyone, it seems, lives his or her life at a breakneck pace, constantly rushing here and there to get everything done. Technological advances that once promised more leisure time now seem only to push us further behind, making it ever more difficult to catch up. So we frantically scramble. We feel out of touch!out of touch with our spouse, out of touch with our families, out of touch with the world around us and, perhaps most of all, out of touch with God. Is there a way to get back in touch? In the Bible, God gives us a solution written within the Ten Commandments. It's a commandment that gives us time for a welcome, refreshing rest from our weekly labors, a time during which we must no longer be absorbed in our ordinary daily cares and concerns!a time for spiritual rejuvenation. Inside the ebook, "Sunset to Sunset: God's Sabbath Rest", you will read why God commanded a day of rest and the purpose for it. You will discover the answers to which day is the Sabbath, why the Sabbath is relevant for all of us today and why this day of rest makes sense in today's world. Join us for a journey through the Bible to discover the importance of God's Sabbath rest. Chapters in this ebook: -- The Sabbath: In the Beginning -- When Is the Sabbath Day to Be Kept? -- Which Day Is the Sabbath? -- Names for Saturday in Many Languages Prove Which Day Is the True Sabbath -- Jesus Christ and the Sabbath -- Just What is Legalism? -- Was the Sabbath Changed in the New Testament? -- Was Sunday the New Testament Day of Worship? -- Was God's Law Abolished in the New Testament? -- Why is the Sabbath Commandment Not Repeated in the New Testament? -- Surprising Admissions About the Sabbath and Sunday -- "There Remains a Sabbath-Rest for the People of God" -- A Sign of God's People -- God's Sabbath in Today's World -- The Sabbath in the Age to Come -- What is True Worship? -- Our Appointment With God -- A Test for You? Inside this Bible Study Aid ebook: "God, Creator of the Sabbath, determines when the day begins and ends, and it was observed from sunset to sunset throughout the Bible. His Sabbath begins Friday evening at sunset and ends Saturday evening at sunset." "Jesus Himself clearly denied that He intended to change or abolish the Sabbath or any part of God's law. "Do not think that I came to destroy the Law or the Prophets," He said. "I did not come to destroy but to fulfill" (Matthew 5:17)." "Many who argue that the Sabbath was abolished in the New Testament point to the apostle Paul's writings to justify their view. But is this opinion correct? They commonly cite three passages to support that claim!Romans 14:5-6, Colossians 2:16-17 and Galatians 4:9-10." "Here we see God's true intent for the Sabbath: It is part of a proper, loving relationship with Him. It is a matter of honoring God."

One of Barack Obama's Favorite Books of 2021 The New York Times bestseller from the Grammy-nominated indie rockstar Japanese Breakfast, an unflinching, deeply moving memoir about growing up mixed-race, Korean food, losing her Korean mother, and forging her own identity in the wake of her loss, which brought her to reclaim the gifts of taste, language, and history her mother had given her. "As good as everyone says it is and, yes, it will have you in tears. An essential read for anybody who has lost a loved one, as well as those who haven't"
MarieClaire "Possibly the best book I've read all year... I will be buying copies for friends and family this Christmas." Rukmini Iyer in the Guardian "Best Food Books of 2021" "Wonderful... The writing about Korean food is gorgeous... but as a brilliant kimchi-related metaphor shows, Zauner's deepest concern is the ferment, and delicacy, of complicated lives." Victoria Segal, Sunday Times, "My favourite read of the year! In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humour and heart, she tells of growing up the only Asian-American kid at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the east coast for college,

finding work in the restaurant industry, performing gigs with her fledgling band and meeting the man who would become her husband her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal pancreatic cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious, lyrical and honest, Michelle Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, *Crying in H Mart* is a book to cherish, share, and reread.

A book for the general reader rather than lawyers, this often tongue-in-cheek account of Michael Challinger's interactions with the criminals he defends gives a first-hand account of the quirky nature of human beings. *Mostly Guilty* deals with the workings of the lowest level of the Australian legal system. It's about the down-to-earth cases that happen daily in Magistrates' Courts. It does so through the experiences and anecdotes of a low-flying criminal barrister. While the cases are from Victoria, the book makes reference to other states and has relevance and interest Australia-wide. The style is light, punchy and informal, with lots of direct speech and many funny yarns. Some of the book is tongue-in-cheek (and even politically incorrect) but it also makes serious points throughout. It's entertaining as well as informative. The chapters are short, and generally deal with specific offences (shop theft, for example) or areas of law (bail). Others recount particular cases in an ironic or colourful way. Most cases are of low to medium criminality so the light-hearted tone is not inappropriate. Most legal memoirs are by big-shot advocates or retired judges. *Mostly Guilty* is different, and doesn't take itself too seriously.

The Mental Capacity Act 2005 provides a statutory framework for people who lack the capacity to make decisions for themselves, or for people who want to make provision for a time when they will be unable to make their own decisions. This code of practice, which has statutory force, provides information and guidance about how the Act should work in practice. It explains the principles behind the Act, defines when someone is incapable of making their own decisions and explains what is meant by acting in someone's best interests. It describes the role of the new Court of Protection and the role of Independent Mental Capacity Advocates and sets out the role of the Public Guardian. It also covers medical treatment and the way disputes can be resolved.

First published in 1937. The Book of Songs is a collection of ancient Chinese songs, dating from 800 to 600 B.C. Until this was published in 1937 it had not been translated into English since the middle of nineteenth century, when sinology was still in its infancy. For the first time the original meaning of 290 out of the 305 songs is given, use being made of the advances in the study of old Chinese. The result is not merely a clear picture of early Chinese life, but also the restoration to its proper place in world literature of one of the finest collection of traditional songs.

The Hunchback of Notre-Dame is a French Gothic novel by Victor Hugo published in January 14, 1831. The title refers to the Notre Dame Cathedral in Paris, on which the story is centered. Set in medieval Paris, it tells the story of the beautiful gypsy Esmeralda, condemned as a witch by the tormented archdeacon Claude Frollo, who lusts after her. Quasimodo, the deformed bell ringer of Notre-Dame Cathedral, having fallen in love with the kindhearted Esmeralda, tries to save her by hiding her in the cathedral's tower.

Decades of research have demonstrated that the parent-child dyad and the environment of the family are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8: universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.
