The NetWeaver platform was a portal technology developed by Israeli software company TopTier Software (founded in 1997), and which SAP acquired in 2001. The founder of TopTier Software, Shai Agassi, joined SAP and was given responsibility for the company's overall technology strategy and execution. He initiated the development of the integration and application platform that became the NetWeaver platform.

SAP NetWeaver - Wikipedia

Develop, provision, and manage your mission-critical applications across a heterogeneous software environment. With SAP NetWeaver, you gain the tools, Web services, and application server capabilities you need to support seamless application, data, and system integration. On-premise deployment; Custom application development for ABAP
