my workshop SCHAUBLIN 160
(1967) Lathe ~~SCHAUBLIN 135~~
~~N°7058 Schaublin 135 High~~
~~Precision Lathe~~

A high precision, toolroom-class screwcutting lathe, the 135 was produced as just a single, well-specified model (in comparison with the 3 variations for the 125) with a nominal centre height of 135 mm (5.3") but an actual 315 mm swing over the bed and a capacity of 630 mm (24.8") between centres.

~~SCHAUBLIN 135 Lathe~~
~~Lathes.co.uk~~

The 135, 150 and 160 were the largest of the manual lathes produced by

Access Free Schaublin 135 High Precision Lathe Service Instructions

Schaublin. While small when contrasted with the output of firms such as Oerlikon or the UK's Dean, Smith and Grace, in comparison to Schaublin's other lathes they are leviathans – the 160 weighed in at 1800kgs!
