The title begs the question, If soap, like the famed 99.44 percent pure Ivory, isn't natural, then what is? Ittner clarifies the answer in her introductory chapter, explaining that she intended to "avoid all animal and petroleum-based products, synthetic colorants and fragrances." That said, the rest is amazingly easy. Take run-of-the-mill kitchen equipment such as measuring spoons and double boilers, mix, then heat in the stove or microwave; add other techniques, from embedding objects to layering and swirling; and it's soap. She spends many pages detailing the natural materials, colorants, additives, and scents for a good foundation; the next four chapters are devoted to 45 recipes, each with color photographs, lists of materials and tools, and easy-to-follow numbered instructions. Choose among the different soap properties (soft, smooth, exfoliation, cleanse, and luxurious). --Booklist

Soap Making For Beginners: A Guide to Making Natural Homemade Soaps from Scratch, Includes Recipes and Step by Step Processes for Making Soaps & Top Essential Oil Recipes: A Recipe Guide Of Natural, Non-Toxic Aromatherapy & Essential Oils for Healing Common Ailments, Beauty, Stress & Anxiety Soap Making This book is perfect for those who want to make their own soap but do not know where to begin. Soap making is a fun and rewarding hobby that you can also turn into a business once you have successfully made your first batch of soap. In this book, you will get to know the different ingredients, tools and processes on how to create soap. Soon you will get to know the basic steps on how to process soap. There are mainly two basic processes, the Hot Process and Cold Process. But before moving on to these two, let's first discuss a very useful online tool that you can use in formulating the perfect soap recipes. Soap making is a fun filled activity that anyone can enjoy. The sense of accomplishment in producing something that is useful in everyday life can build one's self confidence and self esteem. You can even add a personal touch in the soaps that you will make by adding some of your favourite oils and scents. Natural soap has a greater advantage in terms of skin moisturizing than commercially manufactured soaps because of the ingredient glycerine that will be left in the soap. In commercially manufactured soaps, glycerine is filtered out of the soap and sold as a different product. Glycerine is an ingredient that is responsible for retaining water in the skin, leaving it soft and moisturized. Homemade soaps can be used as gifts to your friends and relatives during the holidays. Surely, they will appreciate the effort you put into making the soaps as well as the skin health benefits they have. These homemade soaps can be income generating as well, for you can sell your nice smelling products in stores that support selling of natural and homemade goods, or in the internet. If you have always wanted to know how to make soap, wanted to have the recipes that will eliminate those unhealthy products your using everyday on your body! Then you need to act! And act now, stop using cancerous products that harm you and your family! *Top Essential Oils* To make essential oils, it needs to be extracted from the plant. This can be done through expression and distillation. Expression, also referred as cold pressing, expression is method used to extract oils from citrus fruits like lime, orange, tangerine, lemon, and bergamot. In the past, expression doesn't require any sorts of tools except for a sponge. After soaking the citrus rind or zest, it will be pressed against the sponge repeatedly to absorb the oil. The sponge will then be squeezed over a container to catch the oils and allow it to separate from its juices. After a few hours, the oils will be siphoned off and bottled. A modern type of expression involves using a blender-like device that's equipped with spikes. Once the citrus zest, rind, or peel is placed into the device, it will rotate and prod and prick the citrus until the oils

are released. Oil will be collected at the bottom of the device and bottled immediately.

*****RECOMMENDED BY THE HANDCRAFTED SOAP & COSMETIC GUILD***** "Should become THE book for soapmaking. . . . It's about time someone wrote a book like this. Most are idealistic and inaccurate. This book has a wonderful common sense approach that is SO long overdue. . . . I can recommend it with 100% confidence." -- Susan Kennedy, Oregon Trail Soaps, Rogue River, Oregon "Smart it is A simple, no-nonsense book that cuts through the curmudgery of stifling soap bibles like no other." -- Shellie Humphries, Harstine Island, Washington "Way overdue. . . . A gift of common sense caution, proven methods, tried-and-true shortcuts, and some excellent recipes as well, for both the professional/experienced soapmaker and the eager beginner." -- Deb Petersen, Shepherd's Soap Co., Shelton, Washington "A great book for beginners, with clear and easy instructions." -- Anne-Marie Faiola, Bramble Berry Inc., Bellingham, Washington "I learned more from Smart Soapmaking than from any other soaping book, and I have read quite a few. . . . It's written with the average person in mind, not a chemistry major. Directions are very simple and easy to understand. It really takes the mystery out of making soap." -- Jackie Pack, Stuart, Virginia "Groundbreaking Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers Unquestionably the best book with which to begin. To be precise, it's probably the most accessible, most reader-friendly, and most immediately useful container of information a first-time soapmaker could hope to find." -- Wishing Willow (blog)

With so many brands and types of soaps available in the market, the idea of making soaps at home seems a little bit weird, but the satisfaction and enhancement of creativity while experimenting different colors, pattern and shapes while soap making will make you fall in love with it.
