Preparing for the Social Work Exam. To become a licensed clinical social worker, you need to take and pass the social work exam(s) to obtain your professional license and practice legally in the United States. In preparation for the social work examination, the first step is obtaining your master's degree from an accredited university.

I chose this Uni because they

are very much research driven and all the academics still work within the community so have relevant historical and recent knowledge of social work in the community. I see the written test as yes, about how you write in terms of grammar and all that stuff but also about how you interpret the information you have.

The Association of Social Work Boards offers full-scale

online practice tests for candidates registered to take the Associate, Bachelors, Masters, or Clinical ASWB licensure examinations.

There is no online practice test for the Advanced Generalist examination.

There is only one version of the online practice test for each category. Note that candidates registered for the Associate exam may purchase the Bachelors online practice test, which shares the same content outline.
