Commission Meeting Workshop: Creating World Class Curricula for 9-14 Career Education Programs Sreb Readiness Courses Math Ready

SREB Readiness Courses help underprepared students succeed in high school and postsecondary studies. SREB developed the courses, with input from state leaders and master teachers, to improve student skills and understanding in literacy and mathematics. SREB offers two sets of courses, to prepare students at two different levels.

Readiness Courses in Literacy & Math - Southern Regional ...

SREB's Ready for High School courses help eighth- or ninth graders master the literacy and math skills they need to complete a college ready academic core, graduate on time and pursue postsecondary studies. In Ready for High School Literacy, students read, write about and engage with complex texts in different disciplines.

Readiness Courses - Southern Regional Education Board

This study examines three years of data collected from 35 schools in five states that implemented Math Ready. As part of SREB's suite of Readiness courses, Math Ready was designed to help seniors master math skills before transitioning from high school to postsecondary education and the workplace and avoid costly remediation at the postsecondary level.

Math Ready - Southern Regional Education Board

readiness gap, SREB has developed two sets of readiness courses in literacy and mathematics. The Ready for College courses are designed to give underprepared students a solid foundation for success in college and postsecondary training. The Ready for High School courses offer an earlier intervention, reaching underprepared
