Statistical Mechanics Donald Allan
McQuarrie

Statistical mechanics in itself can be a bit difficult to understand, but McQuarrie is one of the best authors I have come across. I'd definitely recommend this book because it really goes in depth with explaining stat mech but in such a way that you'll be able to follow!

Amazon.com: Statistical Mechanics (9781891389153 ...

Statistical Mechanics is the extended version of McQuarrie's earlier text - Statistical Thermodynamics [USB 1984]. Statistical Mechanics [previously published by Longman Education] is a renowned accessible introduction to the subject.

McQuarrie's book is typically the standard text in many undergraduate and graduate physics courses, but I believe there are many other resources to learn statistical mechanics in a much easier way. I find the following things to be particularly annoying about the book: 1) The typeface. The pages are very difficult to read, especially equations.
