Geoffrey Gordon's highly successful

SYSTEM SIMULATION now has

been updated to include the latest

changes in this field while keeping

its excellent coverage of

fundamental concepts and

applications. Both continuous and

discrete simulation are treated in

depth here, with examples in three

programming languages—CSMP III,

SIMSCRIPT II.5, AND GPSS V.

Geoffrey Gordon (Author of System Simulation)

GPSS was developed by IBM's Geoffrey Gordon at the beginning of the 1960s. He named it G ordon's P rogrammable S imulation S ystem. The name was changed when IBM decided to release it as a product. The "General Program" part of the new name was to create a standard in waiting-line simulations.
