Jack writes in Loving Jack.

Minnie McClary is the new girl and knows that she doesn't quite fit in, especially not after she lost it one day in language arts. In art, Minnie has to paint a self portrait--but how can she do this when she doesn't even know who she is anymore?

Things aren't great at home, either.

Her uncle Bill is building a huge replica of the Apache helicopter he flew in Iraq, and her father has blown some sort of whistle and has to start over in a new job. Then Miss Marks takes over Minnie's language class and encourages students to think critically about everything.

They write their thoughts and questions in journals, marking the most private entries For Your Eyes Only. Minnie and her classmate Amira are inspired, but some people

in town wonder why Miss Marks is encouraging students to ask these questions and just what, exactly, she's teaching. When a group of angry parents demands Miss Marks's suspension, Minnie finds herself asking a lot of questions--and figuring out what she has the power to change.

Provides a radical view on future corporate leadership, the qualities that leaders need as well as providing practical advice for the aspiring 21st century 'super leader'.

Anita Lahey's second collection, *Spinning Side Kick*, is a hard-knuckled look at the other half. These lively poems mix a girl-about-town cockiness with an all-too-rare emotional honesty about men, love, and relationships. Whether the subject is a one-man chimney demolition, the lifelong fidelity of seahorses, a lover at war in Afghanistan or a kickboxing match, Lahey confronts the enduring disconnect between the sexes

in a language that is slangy and quick, punctuated with jabs. She eyes those moments—in a day, in a life—when the normal clues we rely on disappear, shifting the line between domesticity and danger. In *Spinning Side Kick*, a talented poet returns with sharper aim.

A round the world journey of a mother, photographer and journalist, documenting the ways in which the world welcomes its children.

In the past 20 years, a wave of right-wing populist movements has swept over Europe, changing the face of European politics. The Netherlands has been one of

the more iconic countries to partake in this shift. Known internationally as an emblem of progressivism and tolerance, the country soon became a frontrunner in the revival of nationalist and anti-immigrant sentiment. This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right. The emergence of Dutch populism, this book shows, formed an integral part of a broader conservative tendency, identified as the Dutch New Right. In the US and the UK, the term New Right has been used to describe conservative backlash

movements that arose in opposition to the progressive movements of the 1960s. The Dutch swing to the right, this book argues, formed a belated iteration of the New Right backlash that occurred overseas. This text will be essential reading for students and scholars in the fields of European Studies and Political Science, and Dutch politics and society more specifically.

The End of Our Time

Spinning Side Kick

This book is the philosophical fruit of Nikolai Berdyaev's first-hand experience of, and reflections on, the crisis of European civilization in the aftermath of the Great War and the Russian Revolution.

Berdyaev tells us that the modern age, with its failed Humanism, is being replaced by a new epoch: "the new middle ages," an epoch of darkness, an epoch of the universal night of history.

Berdyaev asserts that this

night is a good thing: in this darkness, which is a return to the mysterious life of the spirit, the destruction inflicted by the previous period of "light" will be healed: "Night is not less wonderful than day; it is equally the work of God; it is lit by the splendor of the stars and it reveals to us things that the day does not know. Night is closer than day to the mystery of all beginning" (pp. 70-71, present volume).

It shows that language adaptation is a particular aspect of language change, and thus establishes a link between the social and the historical study of language. India's fault lines run wide and deep. Some of them go back centuries, others are of comparatively recent origin. The myriad villains these fault lines have spawned include rapists, murderers, terrorists, prophets of religious hatred, corrupt politicians, upholders of abhorrent caste traditions, opponents of free speech and dissent, apologists for regressive cultural practices, and external adversaries who try to destabilize our borders. All of them are responsible for impeding the

editor Jonathan Weisman has produced a book that could not be more important or timely. When Weisman was attacked on Twitter by a wave of neo-Nazis and anti-Semites, witnessing tropes such as the Jew as a leftist anarchist; as a rapacious, Wall Street profiteer; and as a money-bags financier orchestrating war for Israel, he stopped to wonder: How has the Jewish experience changed, especially under a leader like Donald Trump? In (((Semitism))), Weisman explores the disconnect between his own sense of Jewish identity and the expectations of his detractors and supporters. He delves into

the rise of the Alt Right, their roots in older anti-Semitic organizations, the odd ancientness of their grievances—cloaked as they are in contemporary, techy hipsterism—and their aims—to spread hate in a palatable way through a political structure that has so suddenly become tolerant of their views. He concludes with what we should do next, realizing that vicious as it is, anti-Semitism must be seen through the lens of more pressing threats. He proposes a unification of American Judaism around the defense of self and of others even more vulnerable: the undocumented immigrants,

The notion of citizenship has gradually evolved from being simply a legal status or practice to a deep sentiment. Belonging, or feeling at home, has become a requirement. This groundbreaking book analyzes how 'feeling rules' are developed and applied to migrants, who are increasingly expected to express feelings of attachment, belonging, connectedness and loyalty to their new country. More than this, however, it demonstrates how this culturalization of citizenship is a global trend with local variations, which develop in relation to each other. The authors pay particular attention to the intersection between sexuality, race and ethnicity, spurred on by their awareness of the dialectical construction of homosexuality, held up as
