The Fortunes of Africa is a first-rate introduction

know next to nothing, and is an excellent
companion to Mr. Meredith’s masterful account of
black Africa since independence, The Fate of
Africa. Like the previous volume, this one is

One of the best books I've read this year has been Martin Meredith's sweeping The Fortunes of Africa: A 5000 Year History of Wealth, Greed and Endeavour. It might sound foolhardy, or plain foolish, to try and write the history of an entire continent in one book, and clearly both writer and reader are aware of the chutzpah involved.
