

The Hidden Meaning Of The 12 Gates Of Jerusalem

Insight Into Information is based on sixty years of research on the Secret Messages and Hidden Maps Inside of Information. These several levels of subtle, subliminal and secret meanings provide reverberating, resonant echoes in all information much as the background music in movies but with more levels of meaning in these fields: science, religion, literature, entertainment, TV, advertising, technology and literally all fields of endeavor at home, at work, in school and at play. Many have already benefited from this information. The author, a retired clinical and rehabilitation psychologist, used this information in his private, clinical and consulting practice in schools and industry. This new, proven research shows: The helpful hidden hooks from which you can benefit. You will learn the inborn universal maps which influence and guide all of us in marvelous ways--including the name GOD on the human head and face. The harmful, deceptive hooks inside of words of which you are not aware but which can influence you. The word now is an example, as in buy now: Now is an anagram of won and own. These anagrams puzzle our brain and set up delays which advertisers want and to get you to participate in the anagram game. You will learn how to avoid such hidden hooks. Don't be cheated. Know these hidden hooks, control your choices and make well informed decisions. The Table of contents lists the chapters which describe the many ways you can benefit from knowing these hidden messages and secret maps in religion; health and healing; fun and entertainment; advertising; merchandising; education; communications; literature and the hidden influences inside of names. The Afterword at the end of the book tells the story of how the author became interested, did the research, used the research with patients and organizations, and wrote the book: the when, where, why and how of the origin of the information in this book.

Joseph Pearce offers a fascinating and insightful course on The Lord of the Rings, which is the greatest and most popular work of literature of the twentieth century. The course discusses the book's phenomenal success and the life of its author, J. R. R. Tolkien, before embarking on a tour of the world and characters of Middle-earth. Despite the absence of any direct mention of Christ or the Catholic Church, Tolkien described his work as "fundamentally religious and Catholic." He was able to infuse his fictional world with theological orthodoxy through his creation myth and world order, by endowing his protagonists with Christian virtues, and by incorporating themes of grace and mercy. Tolkien's deep faith and creative philosophy emerges from the narrative as an unmistakable Catholic presence. The very foundation of Tolkien's Middle-earth, from its creation by Eru Ilúvatar vatar, the one God, to angel-like Melkor's sinful rebellion, to the menacing presence of Sauron, the dark lord, supports Professor Pearce's argument for the Catholicity of the work. You'll learn how the One Ring symbolizes Original Sin, how the dates Tolkien chose for events in the story are theologically significant, how the Elvish waybread, lembas, figures as the Eucharist, and how Frodo acts as a Christ-figure. Tolkien also describes his work as an allegory of "power usurped for domination" - a theme

which is all the more important to examine in our modern world. Characters throughout *The Lord of the Rings* are tempted by power and the urge to seize it and wield it for personal gain and unlawful control. Throughout the journey of the Fellowship, various characters face the temptation of the One Ring - the wizard Gandalf, through whom the Ring would wield a terrible power; human man Boromir, who would use it to save his people; elf queen Galadriel, weary from fighting the "long defeat" against evil. Among the characters who do usurp power for domination are Saruman, the white wizard who succumbs to evil, whose machinations at Isengard only bring more evil into Middle-earth. Over the eight lectures in the course, Professor Pearce highlights connections, allegories, and insights which will expand your reading of *The Lord of the Rings*. It is said that art holds the mirror up to life. This is the reason that art is "real" and fiction is "true". *The Lord of the Rings* enjoys such fame and popularity because in a way, it shows us ourselves in the characters. Learn more and discover for yourself the truth written into *The Lord of the Rings* with Professor Joseph Pearce.

In this New York Times bestseller, internationally renowned Japanese scientist Masaru Emoto shows how the influence of our thoughts, words and feelings on molecules of water can positively impact the earth and our personal health. This book has the potential to profoundly transform your world view. Using high-speed photography, Dr. Masaru Emoto discovered that crystals formed in frozen water reveal changes when specific, concentrated thoughts are directed toward them. He found that water from clear springs and water that has been exposed to loving words shows brilliant, complex, and colorful snowflake patterns. In contrast, polluted water, or water exposed to negative thoughts, forms incomplete, asymmetrical patterns with dull colors. The implications of this research create a new awareness of how we can positively impact the earth and our personal health.

This article is based on the hypothesis that Jesus was an atheist, monist and humanist thinker. We will use this idea to decode two of the most cryptic "Loghia" (Greek word for "Sayings") of the Gospel of the secret Sayings of Thomas: the number 7 and 98, also known as the "Saying of the Lion" and that of "the mighty man that must be killed". The article also offers new ideas for historical research on the figure of Jesus, in particular, about the meaning to be given to the expression "Son of man" which Jesus refer to himself, in the synoptic Gospels, as a messianic title. What meaning did he intend to give to his person and his mission in this way? It is not a trivial question: historical criticism, despite two centuries of intense research, has not yet managed to give a plausible explanation in this regard.

A lot of people struggle to understand what the truth is, what is right and what is wrong. There is perpetual dilemma to distinguish between right and wrong. According to Dada Bhagwan, the Gnani Purush (the enlightened one), in the worldly life there are three types of truth. One - absolute truth (self) second - relative truth and third - untruth. In this book, Dadashri has discussed the meaning of absolute and relative truth. Absolute truth 'I' can never be destroyed, it is eternal. It belongs to the soul (atma). The realization that you are pure soul (shuddha-atma) is eternal, and ultimate truth. Relative truth is what is determined by the people at large. The relative truth may vary from person to person. The relative truth may help us in our development in the relative world, but for real development absolute truth is necessary. The book presents Pujya Dadashri's spiritual discourses on absolute and relative truth and the nature of truth.

A follow-up to *The Secret Language of Flowers: Notes on the Hidden Meanings of Flowers in Art*. To celebrate the 30th anniversary of the Louvre pyramid, Jean-Michel Othoniel was invited to create a work relating the importance of flowers in the Museum's eight art departments. The artist photographed the floral wealth concealed in the masterpieces of the Museum's painting, drawing, sculpture, embroidery and enamel collections. Using this, Othoniel composes his own original herbarium, accompanied with notes on the secret language of flowers

and their symbolism in the history of art. Among the seventy details of flowers, you will find the thistle in Dürer's selfportrait, the poppy in the Paros funerary stele, the apple sitting on a stool in *The Lock* by Fragonard, or the peony attached to the unfastened blouse of the young woman in Greuze's *Broken Pitcher*. The work also introduces us to lesser-known details in works, offering a magnificent treasure hunt for visitors of the museum. Amid this vast prairie spangled with symbolic flowers, the artist asks this question: If there could be only one, which would be the Louvre's flower? A question to which the artist himself offers his own response.
