Having relocated to Arizona from New Mexico as a child in 1950 and living most of her life in the Grand Canyon State, Young is what locals affectionately

Amazon.com: The Moon Saw It All (9781589852501): Young ...

Although The Moon Saw It All is her first children's book, it's not the first time her work has been published. Her childhood poems, The Arizona Desert, It's Springtime in this Country, and A Lonely Shepherd's Tale were edited by Milford Shields, Poet Laureate of Colorado, Writing poetry has been Nancy Lee Young's lifelong passion, and her poems of nature and wildlife.

The Moon Saw It All by Nancy Young - Goodreads

The Moon Saw it All is a super cute tale about what animals do after the sun goes down, when everyone else is sleeping. They dance and sing, howl and prance, and have a great time socializing with other animals. The illustrations are stunning! I am always impressed by Nadia Komorova's work.

Amazon.com: Customer reviews: The Moon Saw It All

The Moon Saw It All. by Nancy L. Young. Ever wonder what animals do after dark? They dance the night away at a critter ball thrown for one and all! Through delightful poetry and creative imagery, little ones are transported to a fantastical world where crickets rub wings to a jitterbug dance, Gila monsters swish to the monster-mash, cer

The Waterboys - The Whole of the Moon (Official Music Video)

The splitting of the moon is a miracle in Muslim tradition attributed to the Islamic prophet Muhammad. It is derived from the Quran, Surah Al-Qamar verses 54:1–2, and mentioned by Muslim traditions such as the Asbab al-nuzul. Early traditions supporting a literal interpretation are transmitted on the authority of companions of Muhammad, Abdullah bin Masud and others. According to the Indian Muslim scholar Abdullah Yusuf Ali, the moon will split again when ...

The Moon's core is small (about 20% of the Moons diameter) as opposed to other terrestrial worlds (like the Earth) with cores measuring closer to 50% of their diameters. Above the core are the mantle and crust. Differences in compositions between these layers tell a story of the Moon being largely, or even completely, composed of a g

Inside the Moon | About the Moon – Moon: NASA Science

Moon phases are the same all over the world. The same percentage and area of the Moon are illuminated no matter where on Earth you are. However, the Moon is rotated in different ways depending on the time, the date, your location, and the Moon's position in the sky. Therefore, the illuminated part of a Waning Gibbous Moon can appear
