Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal's years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

- Practical insights to create user habits that stick.
- Actionable steps for building products people love.
- Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.

Laura Vanderkam, the author of *What the Most Successful People Do Before Breakfast*, shows how we can take control of our weekends in *What the Most Successful People Do on the Weekend*. Many of us breathe a grateful TGIF when Friday rolls around, envisioning a weekend full of both productivity and refreshment. Yet too often our precious weekends seem to disappear, eaten up by unproductive work or leisure that fails to energize us. Monday morning comes too fast, finding us still unrested, with tasks still undone. Drawing on real-life stories and scientific research, Vanderkam explains why doing nothing can be more exhausting than doing something and why happy people make weekend plans in advance. She shares weekend tips gleaned from busy people such as politician and news host Mike Huckabee, former CEO Frank Baxter, and TV producer Aliza Rosen. She lists the kind of weekend activities that make people happiest, explains why it's important to unplug at least for a little while, and shares the secret of why Sunday nights may be the most important hours. *What the Most Successful People Do on the Weekend* is a fun, practical guide that will inspire you to rethink your weekends and start your workweek refreshed, renewed, and on track. Laura Vanderkam is the author of *168 Hours: You Have More Time Than You Think* and *All the Money in the World: What the Happiest People Know About Getting and Spending*. Her work has appeared in the *Wall Street Journal*, the *Huffington Post*, *USA Today*, *Scientific American*, and *Reader's Digest*, among other publications. She lives outside Philadelphia with her husband and their three children.

the top of their field. Learn how to: • make time for new habits (even when life gets crazy); • overcome a lack of motivation and willpower; • design your environment to make success easier; • get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

The third mini-ebook by the acclaimed author of *What the Most Successful People Do Before Breakfast* reveals how a few simple changes can make you more productive and fulfilled in your career. In her bestselling mini-ebook *What the Most Successful People Do Before Breakfast*, Laura Vanderkam showed us how to take advantage of our often ignored morning hours to achieve our dreams. Then in the sequel, *What the Most Successful People Do on the Weekend*, she revealed why the key to a better week is a better weekend. Now, in the third mini-ebook of this trilogy, *What the Most Successful People Do at Work*, Vanderkam shows us how to ignite our careers by taking control of our work days. For many of us the typical workday makes us feel like hamsters on the proverbial wheel. Plagued by crises and distractions, we work hard all day. But when we go home we 're not much closer to reaching our goals. But it doesn ' t have to be that way. Vanderkam shows how successful people employ certain daily practices to make sure their work hours are invested, not squandered. Drawing on research and interviews with people as varied as children ' s book illustrator LeUyen Pham, productivity guru David Allen, fitness personality Chalene Johnson, and former race car driver Sarah Fisher, Vanderkam shows how to take control of your career by taking control of your 9-to-5.

Are you looking for a way to transform your health and upgrade your performance at work and at home? Do you need to boost your energy or brainpower to become your best self? This action-inspiring book will show you where to start with sustainable habits that improve your health, your career, and your marriage. In *Power Couple Habits* you will find: Our top 5 ways to upgrade your nutrition, manage stress, purpose, and relationship. The 2 secrets to making healthy changes easier and more sustainable. How a circadian rhythm can help you lose weight, sleep better, and have more energy. Real-life stories of individuals and couples who have overcome obstacles to reach incredible goals in physical, mental, and spiritual health. Practical tips based on cutting-edge medical research. Genes only contribute to 10% of your risk for chronic disease. The other 90% is based on your lifestyle and environment—making healthy habits absolutely essential if you want to live your best life right now and into retirement. In his private lifestyle-based family medicine practice, Dr. Scott Noorda has seen to see a clear pattern in patients with the best outcomes. Couples who worked to become healthier together were far more successful than patients who tried on their own. Dr. Scott Noorda and Amy Noorda share success habits that they have observed in high-achievers all over the country and teach you the easiest way to make healthy choices sustainable. Dr. Noorda's writing is informed by his medical training in neuroscience, nutrition, and functional medicine, as well as his experience working with patients sidetracked by chronic health issues. This book is full of real-life examples of individuals overcoming obstacles by changing their habits and it tackles self-improvement from a family-based, Christian perspective.

New York Times best-selling author Jen Sincero gets to the core of transformation: habits - breaking, making, understanding, and living with them like you've never stuck before. *Badass Habits* is a eureka-sparking, easy-to-digest look at how our habits make us who we are, from the measly moments that happen in private to the resolutions we loudly broadcast (and, erm, often don't keep) on social media. Habit busting and building goes way beyond becoming a dedicated flosser or never showing up late again--our habits reveal our unspoken boundaries, the gaps in our boundaries, our level of self-awareness, and our unconscious beliefs and fears. *Badass Habits* features Jen's signature hilarious voice and offers a much-needed fresh take on the conventional wisdom and science that shape the optimism (or pessimism) around the age-old topic of habits. The book includes enlightening interviews with people who've successfully strengthened their backbones, a new perspective on how to train our brains to become our best selves, and offers a simple, 21-day, step-by-step plan to break bad habits that don't serve us and developing the habits we deem most important. Habits shouldn't be impossible to reset--and with the right boundaries, knowledge of--and permission to go after--our desires, and an easy to implement plan of action, we can make any habit a joyful habit.

\*Named the Best Motivational book of 2016 by the Independent Book Publishing Professionals Group and Eric Hoffer Award winner in non-fiction. *The Excellence Habit* is a biography of an idea, and the idea is simple. The main source of success is excellence, and it depends more on our internal circumstances; Grit, determination, and the discipline to put in the hard work as a matter of habit.

Since Plato, philosophers have described the decision-making process as either rational or emotional: we carefully deliberate and go with our gut. But as scientists break open the mind's black box with the latest tools of neuroscience, they're discovering how the mind works. Our best decisions are a finely tuned blend of both feeling and reason - and the precise mix depends on the situation. When buying a house, for example, it's best to let our unconscious mull over the many variables. But when we're picking stocks, intuition often leads us astray. The trick is to determine when to lean on which part of the brain, and to do this, we need to know more (and smarter) about how we think. In *The Decisive Moment*, Jonah Lehrer arms us with the tools we need, drawing on cutting-edge research by Daniel Kahneman, Colin Camerer and others, as well as the world's most interesting 'deciders' - from airline pilots and famous sportsmen and hedge fund investors to serial killers, politicians and poker players. He shows how the fluctuations of dopamine neurons saved a battleship during the Persian Gulf War, and how the fevered activity of a single brain region led to the mortgage crisis. Lehrer's goal is to answer two questions that are of interest to just about anyone, from CEOs to firefighters: how does the human mind make decisions? And how can we make those decisions better?

*A leading neuroplasticity researcher and the coauthor of the groundbreaking books Brain Lock and The Mind and the Brain, Jeffrey M. Schwartz has spent his career studying the structure and neuronal firing patterns of the human brain. He pioneered the first mindfulness-based treatment program for people suffering from OCD, teaching patients how to achieve long-term relief from their compulsions. For the past six years, Schwartz has worked with psychiatrist Rebecca Gladding to refine a program that successfully explains how the brain works and why we often feel besieged by bad brain wiring. Just like with the compulsions of OCD patients, they discovered that bad habits, social anxieties, self-deprecating thoughts, and compulsive overindulgence are all rooted in overactive brain circuits. The key to making life changes that you want-to make your brain work for you-is to consciously choose to "starve" these circuits of focused attention, thereby decreasing their influence and strength. As evidenced by the huge success of Schwartz's previous books, as well as Daniel Amen's Change Your Brain, Change Your Life, and Norman Doidge's The Brain That Changes Itself, there is a large audience interested in harnessing the brain's untapped potential, yearning for a step-by-step, scientifically grounded and clinically proven approach. In fact, readers of Brain Lock wrote to the authors in record numbers asking for such a book. In You Are Not Your Brain, Schwartz and Gladding carefully outline their program, showing readers how to identify negative brain impulses, channel them through the power of focused attention, and ultimately lead more fulfilling and empowered lives.*

*Do you want to own and control your destiny? Do you want not to obey circumstances but to subordinate what is happening around you to your will and aspirations? Perhaps you wish to be successful (regardless of the type of activity, age, current social status, and other nuances)? Are you confused by the lack of progress in your life, career, or your relationship with a loved one, for example? Do you sometimes wonder what successful people know and do that you don't? If you have answered 'Yes' to any of the questions above, then you are already on the right track, and this book was written for you. Everything is not as difficult as it may seem at first glance. The road to success cannot be walked with brute force or wits alone. Instead, the right habits can make it much easier and quicker for you to achieve success. If you are trying to change something for the better in your life, you need, first of all, to improve your habits. Your career success, contemporary business, or rather, your participation in it, the society that surrounds you, achievements in sports, in love, and even simply improving self-esteem depend on your habits. High performance habits attract life success, and if you master your habits and can adjust them to your liking, you can materialize x your dreams. This book teaches you how to get rid of bad habits and develop the atomic habits of success in yourself. Thus, by developing yourself by forming your habits, you will learn how to achieve any goals in life. More specifically, you will learn: What habits are and how to form them The power of patterns and their influence on people Negative habits and ways to eradicate them Why we need productive habits Examples of successful people who have the right skills How and what you need to create your success habits And more... So, if you are ready to pursue goals in life and own your destiny, all you need to do is take the first, simple step: scroll up to the page and click the "BUY NOW" button on the right to download the book right now. Happy reading and productive habits for you!*

*Is science the only path to knowledge? In this sparkling and provocative book, Jonah Lehrer explains that when it comes to understanding the brain, art got there first. Taking a group of celebrated writers, painters and composers, Lehrer shows us how artists have discovered truths about the human mind - real, tangible truths - that science is only now rediscovering. We learn, for example, how Proust first revealed the fallibility of memory; how George Eliot understood the brain's malleability; how the French chef Escoffier intuited umami (the fifth taste); how Cézanne worked out the subtleties of vision; and how Virginia Woolf pierced the mysteries of consciousness. It's a riveting tale of art trumping science again and again.*

In *The Power of Habit*, award-winning New York Times business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. With penetrating intelligence and an ability to distill vast amounts of information into engrossing narratives, Duhigg brings to life a whole new understanding of human nature and its potential for transformation. Along the way we learn why some people and companies struggle to change, despite years of trying, while others seem to remake themselves overnight. We visit laboratories where neuroscientists explore how habits work and where, exactly, they reside in our brains. We discover how the right habits were crucial to the success of Olympic swimmer Michael Phelps, Starbucks CEO Howard Schultz, and civil-rights hero Martin Luther King, Jr. We go inside Procter & Gamble, Target superstores, Rick Warren's Saddleback Church, NFL locker rooms, and the nation's largest hospitals and see how implementing so-called keystone habits can earn billions and mean the difference between failure and success, life and death. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, raising exceptional children, becoming more productive, building revolutionary companies and social movements, and achieving success is understanding how habits work. Habits aren't destiny. As Charles Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives.

The habits we have shape our reality on a daily basis. Whether they are good or bad depends on YOU and what you chose to do with your habits. This book is not a series of case studies and medical study, instead has been designed to help you make real progress and changes with your daily habits. I have made some huge changes in my own life and now

I am sharing the knowledge I have gained through the experience. My desire is you enjoy the book and are able to get some real positive changes into your habits.

The Power of Saying No: Learn The Power Saying No More Often And Achieve Greater Success In The Process This book contains proven steps and strategies for how to say the more difficult response to requests: "No." This book encourages you, as a person who values freedom and happiness, to learn what "No" stands for. These two letters form an expression representing your dedication and devotion to charting your own destiny. "No" is also the road to having the real kind of success. You can only achieve greater heights if you know how to say no, and this book will encourage you to say "No" without feeling guilty. By reading The Power of Saying No, you will learn: Why it is often so hard to say "No" to people How saying "No" can give you personal strength and stability - great personal empowerment How saying "No" is often the most positive thing you could do Ways the brain has a bias against negative answers Seven effective techniques for saying "No" Ten reasons why it is so challenging to say "No" Seven ways to simplify saying "No" so that others can understand your choice Five reasons why it is okay for you to say "No." Many of us are pleasers. We want everyone to be pleased with us at all times. However, that can mean that we turn control of our lives over to others who have very different ideas of how we should spend our time and resources. The word "no" can set limits that reveal our greatest priorities and needs to those who claim to care about us. When we say it, others are confronted with the truth about who we really are. Some will like what they see; others, not so much! Either way, that tiny word can set us free to find genuine relationships and build great confidence in life. It is now time to make you decision.

Exploring the Power of Habit

Power of Habit

***In the international bestseller *The Power of Habit*, Pulitzer Prize-winning journalist Charles Duhigg explained why we do what we do. In *Smarter Faster Better*, he applies the same relentless curiosity, rigorous reporting and rich storytelling to explain how we can get better at the things we do. The result is a groundbreaking exploration of the science of productivity. A group of data scientists at Google embark on a four-year study of how the best teams function, and find that how a group interacts is much more important than who is in the group. A Marine Corps general, faced with low morale among recruits, reimagines boot camp - and discovers that instilling a 'bias toward action' can turn even the most directionless teenagers into self-motivating achievers. The filmmakers behind Disney's *Frozen* are on the brink of catastrophe - until they shake up their team in just the right way, spurring a creative breakthrough that leads to one of the highest-grossing movies of all time. What do these people have in common? They know that productivity relies on making certain choices. The way we frame our daily decisions; the big ambitions we embrace and the easy goals we ignore; the cultures we establish as leaders to drive innovation: these are the things that separate the merely busy from the genuinely productive. At the core of *Smarter Faster Better* are eight key concepts - from motivation and goal-setting to focus and decision-making - that explain why some people and companies get so much done. Drawing on the latest findings in neuroscience, psychology and behavioural economics - as well as the experiences of CEOs, educational reformers, four-star generals, airplane pilots and Broadway songwriters - this painstakingly researched book explains that the most productive people, companies and organizations don't merely act differently. They view the world, and their choices, in profoundly different ways.***

**From nail biting to cell phone addiction, procrastination to overspending, bad habits seem to outnumber the good ones. Unfortunately, we pay a price for bad habits that outweighs the immediate gratification that they bring. Experts say that at least forty per cent of what we do is solely the result of habit, which is why it is so important to make good habits and break bad ones. In this book, Joyce Meyer starts by examining the nature of habits. The first habit - and most important one to have - is the God Habit. By making it a habit to start your day by reading the Bible and communing with God, asking for His help in your efforts and His strength and sustenance, the stage is set for overcoming the habits you want to break and establishing new ones in their place. The author moves on to discuss fourteen good habits and devotes a chapter to each. The reader is given a specific roadmap to follow until the behaviour has become automatic (the definition of a habit). It's like following a SatNav to get you to a new place. Mel Robbins broke self-publishing records and changed the lives of millions of people with her bestselling global phenomenon, The 5 Second Rule. And now, she's back with The High 5 Habit and on a mission to help you change your life. Don't let the title fool you. This isn't a book about high fiving everyone else in your life. You're already doing that. Instead, Mel teaches you how to start high fiving the most important person in your life, the one who is staring back at you in the mirror: YOURSELF. If you struggle with self-doubt (and who doesn't?) ...If you're tired of that nagging critic in your head (could somebody evict them already?) ...If you're wildly successful but all you focus on is what's going wrong (you're not alone) ...If you're sick of watching everybody else get ahead while you sit on the couch with your dog (don't bring your dog into this) ...Mel dedicates this book to you. Using her signature science-backed wisdom, Mel will teach you how to make believing in yourself a habit so that you operate with the confidence that your goals and dreams demand. The High 5 Habit is a simple yet profound tool that changes your attitude, your mindset and your behaviour. So be prepared to laugh and learn as you take steps to immediately boost your confidence, happiness and results.

Contentment is a super power. If you can learn the skills of contentment, your life will be better in so many ways: You'll enjoy your life more. Your relationship will be stronger. You'll be better at meeting people. You'll be healthier, and good at forming healthy habits. You'll like and trust yourself more. You'll be jealous less. You'll be less angry and more at peace. You'll be happier with your body. You'll be happier no matter what you're doing or who you're with. Those are a lot of benefits, from one small bundle of skills. Putting some time in learning the skills of contentment is worth the effect and will pay off for the rest of your life.

A guide to overcoming the mind's resistance to change, with a method for forming habits, increasing mindfulness, and dealing with life struggles.

Harness the power of small habits to revolutionize your life. It's obvious that you can't go from the starting line to the finish line in one step. The less obvious, but perhaps not so surprising, discovery is that the best path is not one of giant leaps and bounds but rather small, achievable strides. In this book, you'll discover valuable and irreplaceable tips, tools,

and techniques for making real change in your life - and it all starts with thinking smaller. The author suggests dozens of little things you can do everyday that will improve everything from your health, leisure, and relationships to your career, finances, and organization.

An inside look at how the human brain influences our everyday decisions and how we can unlock our potential and adapt our habits to enact positive change. A graduate of both Yale and Harvard, and winner of the Pulitzer Prize, Charles Duhigg introduces how you can overcome the power of habit in his New York Times bestseller, *The Power of Habit*. With insight, experience, and research, Duhigg teaches us how to adapt our habits which make up 40 percent of what we do every day! 40 percent of our day is spent on behaviors which are normally unconscious, now imagine the potential of putting that 40 percent of your behavior under your control and the opportunities become endless. Duhigg believes that changing one small habit can have a snowball effect on the rest of your decisions, leading to endless positive improvements in your life. Through willpower and belief, you can take the necessary actions to adapt your habits and be on your way to living a better, positive life.*

*NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author “Sharp, provocative, and useful.”—Jim Collins “Few [books] become essential manuals for business and living. *The Power of Habit* is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good.”—Financial Times “A flat-out great read.”—David Allen, bestselling author of *Getting Things Done: The Art of Stress-Free Productivity* “You’ll never look at yourself, your organization, or your world quite the same way.”—Daniel H. Pink, bestselling author of *Drive* and *A Whole New Mind* “Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change.”—The New York Times Book Review*

*Say you want to start going to the gym or practicing a musical instrument. How long should it take before you stop having to force it and start doing it automatically? The surprising answers are found in Making Habits, Breaking Habits, a psychologist's popular examination of one of the most powerful and under-appreciated processes in the mind. Although people like to think that they are in control, much of human behavior occurs without any decision-making or conscious thought. Drawing on hundreds of fascinating studies, psychologist Jeremy Dean busts the myths to finally explain why seemingly easy habits, like eating an apple a day, can be surprisingly difficult to form, and how to take charge of your brain's natural "autopilot" to make any change stick. Witty and intriguing, Making Habits, Breaking Habits shows how behavior is more than just a product of what you think. It is possible to bend your habits to your will -- and be happier, more creative, and more productive.*

*Discover the Quickest Way to Rewire Your Brain and Use the Power of Habits To Unlock Your Full Potential! Are you tired of being unsuccessful in your personal or business life? Are you tired of not achieving your goals? Are you constantly feeling stressed out and overwhelmed, even by menial everyday tasks? Success is something that every person is streaming towards - it's in our blood (literally). The feeling that we have when we accomplish something is a product of the release of neuroactive compounds in our brains. Once the brain gets the "taste" of success, it repeatedly wants to recreate the same feeling. That's why everyone loves success and why our lives can become miserable if we fail over and over again. What if there was a way to ensure success no matter what you try to accomplish? There is a way, and this guide will show you the quickest and easiest path to achieve that--the secret...micro-habits with powerful impact. With the Power of Habit in your hands, you will be taken on a unique self-improvement journey where you will learn how to remove old habits from your life and implement powerful and more impactful ones - habits that lead to success.*

*"There's nothing you can't do if you get the habits right". Why do habits exist? How could these be changed in order to transform our personal lives? How do habits interact with our businesses' and communities' lives? Exploring the Power of Habit takes us through the latest scientific discoveries and gives us answers to questions like these. Not all habits belong to the same category or are created as a consequence of the same external or internal reality. Duhigg covers a wide range of these phenomena and explains the willpower to overcome or support them. This book will explain how some companies have achieved enormous success by altering people's habits. By luck or design, they've been tapping into a powerful psychological pattern: the "habit loop". Habits are automatic loops that have 3 parts: the first is the cue, which is the trigger that lets our brain know what to do; the second part is the routine, which is the behavior we perform to get the third part: the reward, which is the satisfaction of a particular craving. IN THIS BOOK, YOU'LL LEARN: □ What three things drive habit loops □ How your mind starts anticipating certain behaviors before it even occurs □ How powerful your habits can become in controlling your everyday life □ What keystone habits are □ The Story of Michael Phelps □ Question from the audience: Value Investing Versus Index Funds When it comes to success, I am a big believer that your habits play a major role in how successful you become. If you're interested in learning more about how habits work and ways to change them, then I invite you to see this book and see for yourself - maybe it will even satisfy a craving you have.*

*Discover the Life-Changing Strategy of This Worldwide Bestseller in 17 Languages! UPDATED: Includes the best habit tracking apps of 2017. Lasting Change For Early Quitters, Burnouts, The Unmotivated, And Everyone Else Too When I decided to start exercising consistently 10 years ago, this is what actually happened: I tried "getting motivated." It worked sometimes. I tried setting audacious big goals. I almost always failed them. I tried to make changes last. They didn't. Like most people who try to change and fail, I assumed that I was the problem. Then one afternoon--after another failed attempt to get motivated to exercise--I (accidentally) started my first mini habit. I initially committed to do one push-up, and it turned into a full workout. I was shocked. This "stupid idea" wasn't supposed to work. I was shocked again when my success with this strategy continued for months (and to this day). I had to consider that maybe I wasn't the problem in those 10 years of mediocre results. Maybe it was my prior strategies that were ineffective, despite being oft-repeated as "the way to change" in countless books and blogs. My suspicions were correct. Is There A Scientific Explanation For This? As I sought understanding, I found a plethora of scientific studies that had answers, with nobody to interpret them correctly. Based on the science--which you'll find peppered throughout Mini Habits--we've been doing it all wrong. You can succeed without the guilt,*

*intimidation, and repeated failure associated with such strategies as "getting motivated," New Year's Resolutions, or even "just doing it." In fact, you need to stop using those strategies if they aren't giving you great results. Most popular strategies don't work well because they require you to fight against your subconscious brain (a fight not easily won). It's only when you start playing by your brain's rules and taking your human limitations seriously--as mini habits show you how to do--that you can achieve lasting change. What's A Mini Habit? A mini habit is a very small positive behavior that you force yourself to do every day; its "too small to fail" nature makes it weightless, deceptively powerful, and a superior habit-building strategy. You will have no choice but to believe in yourself when you're always moving forward. The barrier to the first step is so low that even depressed or "stuck" people can find early success and begin to reverse their lives right away. And if you think one push-up a day is too small to matter, I've got one heck of a story for you! Aim For The First Step They say when you aim for the moon, you'll land among the stars. Well, that doesn't make sense, as the moon is closer than the stars. I digress. The message is that you should aim very high and even if you fall short, you'll still get somewhere. I've found the opposite to be true in regards to productivity and healthy behaviors. When you aim for the moon, you won't do anything because it's too far away. But when you aim for the step in front of you, you might keep going and reach the moon. I've used the Mini Habits strategy to get into the best shape of my life, read 10x more books, and write 4x as many words. It started from requiring one push-up from myself every day. How ridiculous is that? Not so ridiculous when you consider the science of the brain, habits, and willpower. The Mini Habits system works because it's how our brains are designed to change. Note: This book isn't for eliminating bad habits (some principles could be useful for breaking habits). Mini Habits is a strategy to create permanent healthy habits in: exercise, writing, reading, thinking positively, meditating, drinking water, eating healthy foods, etc. Lasting change won't happen until you take that first step into a strategy that works. Give Mini Habits a try. You won't look back.*

Change Your Habits, Identify Your Goals, And Realize Your Dreams We are the sum of our habits. What we routinely do every single day - good or bad, consciously or unconsciously - shapes our character and determines our future. The level of success - or failure - we have reached is rooted in our habits. Knowingly or unknowingly, we acquire habits throughout our lifetime - some of them good, while some are bad. Our habits are influenced by the kind of environment we live in, the kind of people we hang out with often, as well as the extra-ordinary experiences we've gone through in life. Wittingly or unwittingly, we develop habits that are not in sync with our dreams or what we intended to be in the future. This is basically the reason why we fall short of achieving our goals. And because we always fall short of our goals, we always find ourselves at the crossroads of introducing changes in our lives. Unfortunately, there are only two avenues of change we can pursue - hold on to our dreams but change our habits, or downgrade our dreams to suit our current lousy lifestyle. Obviously, everyone would want to hold on to their dreams - but they are just simply at a loss as to how to go about changing bad habits that are preventing them from being the best they can ever be in this world. This book is about introducing changes to your life by building good habits - what exactly you need to succeed in life. It is about propelling your life to the next level of success - but not through simple motivation or inspiration. The book explains that what you need to succeed in life is to harness the power of change within you and create the same habits that have propelled successful people to greater heights. The book will show you how to replace bad habits with the good habits: re-inventing a new "you" who is primed for success. We shouldn't stay stuck in our old ways. We must do it better. It's never too late to make a fresh start. Here Is A Preview Of What You'll Learn... How The Power Of Change Is In Our Own Hands The 6 Sources Of Influence For Changing Habits Understanding Failure Turning Failure Into Success Getting Back On Track After Slipping Up Much, much more!
