Raven Forward Air Controllers - Wikipedia

The Ravens were a group of elite pilots who flew the Cessna O-1 Bird Dogs in Laos during the Southeast Asian Conflict. In slow, low flying aircraft the Ravens' job was to find the target, order up fighter-bombers, mark the target accurately with smoke rockets, control the operation and stay over the target to make a bomb damage assessment.

Who are the Ravens – EAPLS

The Ravens were airborne fighter pilots in unarmed light aircraft who flew observation missions, marked enemy targets with smoke rockets, directed air strikes onto them, and observed and reported bomb damage assessment post strike. Recruiting for the Ravens began when Air Force personnel checked into their original assignments in Vietnam.
