India is the largest film producing country in the world and its output has a global reach. After years of marginalisation by academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality, film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies.

From Bombay to Bollywood analyzes the transformation of the national film industry in Bombay into a transnational and multi-media cultural enterprise, which has come to be known as Bollywood. Combining ethnographic, institutional, and textual analyses, Aswin Punathambekar explores how relations between state institutions, the Indian diaspora, circuits of capital, and new media technologies and industries have reconfigured the Bombay-based industry’s geographic reach. Providing in-depth accounts of the workings of media companies and media professionals, Punathambekar has produced a timely analysis of how a media industry in the postcolonial world has come to claim the global as its scale of operations. Based on extensive field research in India and the U.S., this book offers empirically-rich and theoretically-informed analyses of how the imaginations and practices of industry professionals give shape to the media worlds we inhabit and engage with. Moving beyond a focus on a single medium, Punathambekar develops a comparative and integrated approach that examines four different but interrelated media industries--film, television, marketing, and digital media. Offering a path-breaking account of media convergence in a non-Western context, Punathambekar’s transnational approach to understanding the formation of Bollywood is an innovative intervention into current debates on media industries, production cultures, and cultural globalization.

This unique text provides a comprehensive and systematic introduction to the theory and practice of mobile data networks. Covering basic design principles as well as analytical tools for network performance evaluation, and with a focus on system-level resource management, you will learn how state-of-the-art network design can enable you flexibly and efficiently to manage and trade-off various resources such as spectrum, energy, and infrastructure investments. Topics covered range from traditional elements such as medium access, cell deployment, capacity, handover, and interference management, to more recent cutting-edge topics such as heterogeneous networks, energy and cost-efficient network design, and a detailed introduction to LTE (4G). Numerous worked examples and exercises illustrate the key theoretical concepts and help you put your knowledge into practice, making this an essential resource whether you are a student, researcher, or practicing engineer.

The introduction of contaminants, due to rapid urbanization and anthropogenic activities into the environment, causes distress to the physio-chemical systems including living organisms, which possibly is threatening the dynamics of nature as well as the soil biology by producing certain xenobiotics. Hence, there is an immediate global demand for the diminution of such contaminants and xenobiotics that can otherwise adversely affect the living organisms. Some toxic xenobiotics include synthetic organochlorides such as PAHs and some fractions of crude oil and coal. Over time, microbial remediation processes have been accelerated to produce better, more eco-friendly, and more biodegradable solutions for complete dissemination of these xenobiotic compounds. The advancements in microbiology and biotechnology led to the launch of microbial biotechnology as a separate area of research and contributed dramatically to the development of areas like agriculture, environment, biopharmaceutics, fermented foods, and more. The Handbook of Research on Microbial Remediation and Microbial Biotechnology for Sustainable Soil provides a detailed comprehensive account for microbial treatment technologies, bioremediation strategies, biotechnology, and the important microbial species involved in remediation. The chapters focus on recent developments in microbial biotechnology in the areas of agriculture and environment and the physiology, biochemistry, and the mechanisms of remediation along with a future outlook. This book is ideal for scientists, biologists, academicians, students, and researchers in the fields of life sciences, microbiology, environmental science, environmental engineering, biotechnology, agriculture, and health sciences.

This is a study of popular Indian cinema in the age of globalisation, new media, and metropolitan Hindu fundamentalism, focusing on the period between 1991 and 2004.

When composer A.R. Rahman's first film Roja was released in 1992, his astonishing music with its other-worldly melodies, tonal texture, pulsating rhythms made an instant impact in India. His abundantly flowing talent has given life to the scores of over a hundred films, including Dil Se, Bombay, Lagaan, Warriors of Heaven and Earth, 127 Hours and Jodhaa Akbar. According to a recent estimate by the BBC, 150 million copies of his albums have sold worldwide. A.R. Rahman has won a host of awards, together with a Golden Globe, a Bafta, two Oscars and two Grammys for his score in Slumdog Millionaire. In 2010, he received the Padma Bhushan, the third highest civilian honour, awarded by the Government of India. Despite all his great success, Rahman remains a deeply private person, shying away from the glitz and glamour of show business. A.R. Rahman: The Spirit of Music is in the form of biographical conversations between the composer and Nasreen Munni Kabir in which we hear of Rahman's amazing journey from modest beginnings to an assured place in world music history.

A History of the Hindi Film Song

Heritage occupies a privileged position within the built environment. Most municipalities in the United States, and nearly all countries around the world, have laws and policies to preserve heritage in situ, seeking to protect places from physical loss and the forces of change. That privilege, however, is increasingly being unsettled by the legacies of racial, economic, and social injustice in both the built environment and historic preservation policy, and by the compounding climate crisis. Though many heritage projects and practitioners are confronting injustice and climate in innovative ways, systemic change requires looking beyond the formal and material dimensions of place and to the processes and outcomes of preservation policy--operationalized through laws and guidelines, regulatory processes, and institutions--across time and socio-geographic scales, and in relation to the publics they are intended to serve. This third volume in the Issues in Preservation Policy series examines historic preservation as an enterprise of ideas, methods, institutions, and practices that must reorient toward a new horizon, one in which equity and sustainability become critical guideposts for policy evolution.

With the advent of sound, Hindi songs acquired a grammar of their own, thanks to the introduction of songs as a part of the narrative - a tradition that is unique to Hindi cinema. This gave rise to a class of professionals who acquired a star status that was in the league of the actors themselves - the lyricists. Rajiv Vijayakar’s book chronicles the journeys of leading lyricists - from D.N. Madhok and Pandit Pradeep to Amitabh Bhattacharya and Irshad Kamil, including stalwarts like Shakeel Badayuni and Sahir Ludhianvi, Majrooh Sultanpuri and Anand Bakshi, Gulzar and Javed Akhtar - who have woven magic with the written word. Filled with trivia and never-before-heard-of anecdotes, Main Shaayar Toh Nahin is an introduction to the contribution made by some of the finest wordsmiths to the Hindi film industry.

Dotted across homes in Britain are people who were witnesses to one of the most tumultuous events of the twentieth century. Yet their memory of India’s partition has been shrouded in silence. Kavita Puri’s father was twelve when he found himself one of the millions of Sikhs, Hindus and Muslims caught up in the devastating aftermath of a hastily drawn border. seventy years he remained silent - like so many - about the horrors he had seen. When her father finally spoke out, opening up a forgotten part of Puri’s family history, she was compelled to seek out the stories of South Asians who were once subjects of the British Raj, and are now British citizens. Determined to preserve these accounts - of the end of Empire and difficult birth of two nations - here Puri records a series of remarkable first-hand testimonies, as well as those of their children and grandchildren whose lives are shaped by partition’s legacy. With empathy, nuance and humanity, Puri weaves a breathtaking tapestry of human experience over a period of seven decades that trembles with life; an epic of ruptured families and friendships, extraordinary journeys and daring rescue missions that reverberates with pain, loss and compassion. The division of the Indian subcontinent happened far away, but it is also a very British story. Many of those affected by partition are now part of the fabric of British contemporary life, but their lives continue to be touched by this traumatic event.

Partition Voices breaks the silence and confronts the difficult truths at the heart of Britain’s shared history with South Asia.

Smuggling, gun-running, drugs, terrorism for many decades, Mumbai has lived under the shadow of the Underworld. Dawood Ibrahim, Karim Lala, Varadara- jan Mudaliar: these are names that any Indian would recognise. Analysed in print, immortalised on film, their lives, their gangs, More...their 'businesses' are out there for anyone who wants the information. But there have been women, too, who have been part of this murky side of the city, walking along side, sometimes leading and manipulating men in the Underworld to run their own illegal businesses. Here, for the first time, crime journal- ists S. Hussain Zaidi and Jane Borges explore the lives of some of these women, and how, in cold blood, they were able to make their way up in what was certainly a man's world. From Kamathipura to Dongri, from assassins to molls, this is a collection that tells the stories of women who have become legend in Mumbai's streets, lanes and back-alleys. Absorbingly told, impeccably researched, Mafia Queens of Mumbai reveals a side of Mumbai's Underworld that has never been seen before.

Seduction in Popular Culture, Psychology, and Philosophy

Bee Magical

Beginning in the 1930s, men and a handful of women came from India’s many communities-Marathi, Parsi, Goan, North Indian, and many others--to Mumbai to work in an industry that constituted in the words of some, "the original fusion music." They worked as composers, arrangers, assistants, and studio performers in one of the most distinctive popular music and popular film cultures on the planet. Today, the songs played by Mumbai’s studio musicians are known throughout India and the Indian diaspora under the popular name "Bollywood," but the musicians themselves remain, in their own words, "behind the curtain"--the anonymous and unseen performers of one of the world’s most celebrated popular music genres. Now, Gregory D. Booth offers a compelling account of the Bollywood film music industry from the perspective of the musicians who both experienced and shaped its history. In a rare insider’s look at the process of musical production from the late 1940s to the mid 1990s, before the advent of digital recording technologies, Booth explains who these unknown musicians were and how they came to join the film music industry. On the basis of a fascinating set of first-hand accounts from the musicians themselves, he reveals how the day-to-day circumstances of technology and finance shaped both the songs and the careers of their creator and performers. Booth also unfolds the technological, cultural, and industrial developments that led to the enormous studio orchestras of the 1960s-90s as well as the factors which ultimately led to their demise in contemporary India. Featuring an extensive companion website with video interviews with the musicians themselves, Behind the Curtain is a powerful, ground-level view of this globally important music industry.

inch...this work is likely to become a standart work very quickly and is to be recommended to all schools where recorder studies are undertaken inch. (Oliver James>Contact Magazine) A novel and comprehensive approach to transferring from the C to F instrument. 430 music examples include folk and national songs (some in two parts), country dance tunes and excerpts from the standard treble repertoire ofBach, Barsanti, Corelli, Handel, Telemann, etc. An outstanding feature of the book has proved to be Brian Bonsor’s brilliantly simple but highly effective practice circles and recognition squares designed to give, in only a few minutes, concentrated practice on the more usual leaps to and from each new note and instant recognition of random notes. Quickly emulating the outstanding success of the descant tutors, these books are very popular even with those who normally use tutors other than the Enjoy the Recorder series.

You’re seven and you must pick which parent you want to stay with. You’re an adolescent contemplating to be or not to be while a holding a knife to your wrist. You’re the victim left bleeding in a cold room after being sexually violated. You’re a an escape artist who has just managed to leave their oppressive home. You’re nothing but the experiences that have happened to you. These moments of experience may seem little but they aren’t really that small. They’re key parts of the puzzle that makes up your life. They’re the point from where life takes a different turn. Compact, daunting and brutally honest, these short stories delve into the world of the subtle traumatic episodes which actually play a significant role in the development of the person so much so that this almost becomes an Identity for the rest of their life.

This book examines the circulation and viewership of Bollywood films and filmi modernity in Bangladesh. The writer poses a number of fundamental questions: what it means to be a Bangladeshi in South Asia, what it means to be a Bangladeshi fan of Hindi film, and how popular film reflects power relations in South Asia. The writer argues that partition has resulted in India holding hegemonic power over all of South Asia’s nation-states at the political, economic, and military levels;a situation that has made possible its cultural hegemony. The book draws on relevant literature from anthropology, sociology, film, media, communication, and cultural studies to explore the concepts of hegemony, circulation, viewership, cultural taste, and South Asian cultural history and politics.

BollySwar is a decade-wise compendium of information about the music of Hindi films. Volume 8 chronicles the Hindi film music of the decade between 2001 and 2010. This volume catalogues more than 1000 films and 8000 songs, involving more than 2000 music directors, lyricists and singers. An overview of the decade highlights the key artists of the decade - music directors, lyricists and singers - and discusses the emerging trends in Hindi film music. A yearly review provides listings of the year's top artists and songs and describes the key milestones of the year in Hindi film music. The bulk of the book provides the song listing of every Hindi film album released in the decade. Basic information about each film's cast and crew is provided and detailed music credits are provided. Where available, music credits go beyond information regarding music directors, lyricists and singers, and include the names of session musicians, assistants, programmers, arrangers, mixers, recordists, etc. Where applicable, music related awards are listed. Interesting trivia is listed for most films, more than 1500 in all. This includes information about artist debuts, plagiarised or sampled songs, controversies and stories behind the making of the film and its music. This book is primarily meant as a quick reference for people looking for information related to a Hindi film or a song, but readers can also browse through the book to get an overview of the events that shaped Bollywood music in the decade. Given that Hindi films are a reflection of the Indian society, the reader can also glean insights about the country’s socio-political and cultural environment from the book.

***Seduction is a complicated concept that is a part of the general human experience. Despite the prevalence of seduction in our personal lives as well as within popular culture, the concept has not been widely discussed and researched as an academic field. Seduction in Popular Culture, Psychology, and Philosophy explores the concept of seduction and the many ways it can be understood, either as a social and individual practice, a psychological trait, or a schema for manipulation. Taking a cross-disciplinary approach, this publication features research-based chapters relevant to sociologists, media professionals, psychologists, philosophers, advertising professionals, researchers, and graduate level students studying in related areas.***

***Key changes have emerged in Bollywood in the new millennium. Twenty-First Century Bollywood traces the emerging shifts in both the content and form of Bollywood cinema and examines these new tendencies in relation to the changing dynamics of Indian culture. The book historically situates these emerging trends in relation to previous norms, and develops new, innovative paradigms for conceptualizing Bollywood in the twenty-first century. The particular shifts in contemporary Bollywood cinema that the book examines include the changing nature of the song and dance sequence, the evolving representations of male and female sexuality, and the increasing presence of whiteness as a dominant trope in Bollywood cinema. It also focuses on the increasing presence of Bollywood in higher education courses in the West, as well as how Bollywood’s growing presence in such academic contexts illuminates the changing ways in which this cinema is consumed by Western audiences. Shifting the focus back on the cinematic elements of contemporary films themselves, the book analyses Bollywood films by considering the film dynamics on their own terms, and related to their narrative and aesthetic usage, rather than through an analysis of large-scale industrial practices. It will be of interest to students and scholars of South Asian Studies, Film Studies, and Cultural Studies.***
