What is Histrionic Personality Disorder? Kati Morton Understanding Personality Disorders Understanding Mind

Personality disorders are a type of mental health problem where your attitudes, beliefs and behaviours cause you longstanding problems in your life. Your experience of personality disorder is unique to you. However, you may often experience difficulties in how you think about yourself and others.

Understanding personality disorders understanding - Mind

Our personality is the collection of thoughts, feelings and behaviours that makes each of us the individuals we are. We don't always think, feel and behave in exactly the same way – it depends on the situation we are in, the people with us and many other interconnecting factors. However, if you experience significant difficulties in how you relate to yourself and others and have problems coping day to day, you may receive a diagnosis of personality disorder.

About personality disorders | Mind, the mental health ...

Borderline personality disorder (BPD) is also known as emotionally unstable personality disorder (EUPD). We can all experience difficulties with our relationships, self-image and emotions. But you might get a diagnosis of BPD/EUPD if these feel consistently unstable or intense and cause you significant problems in daily life.
