

## Viva Que Of Homoeopathic Repertory

This new edition has been fully revised to present students with the latest developments in the field of clinical medicine. Divided into nineteen sections, the book covers all systems of the body, providing in depth explanations of disease aetiology, clinical features, diagnosis, management, and complications. Each topic is highly illustrated with clinical photographs, tables and diagrams with explanations. A ‘miscellaneous’ chapter covers topics such as nutrition, metabolic syndrome, chemical warfare, drugs with multiple indications, stem cell therapy and more. The final sections, ‘Notes’ and ‘What’s New’, are new to this edition and provide the latest terminology, drug tips and references to help students in their preparation for exams. Key Points Fully revised, new edition providing students with the latest developments in clinical medicine Covers disease diagnosis and management in all systems of the body Highly illustrated with nearly 3000 clinical photographs, diagrams, tables and algorithms across more than 1000 pages Previous edition (9789380206348) published in 1999 The structure of this sixth edition is simple and precise, yet strong and rigid. It is built around the experimentations, pure observations, valid interpretations and faithful deductions with an honest and sincere purpose. The mega experiment carried out by Hahnemann, single-handedly, for nearly fifty years, with a sole purpose of benefiting mankind. It has put the art and science of medicine on a scientific footing. It deals with three basic issues: 1. What is curable in diseases and how to know that? 2. What is curative in medicines and how to find that out? 3. And most importantly, how to apply the knowledge of medicines.

This work of the author is a simple and easy way to study the repertory. This is meant specially for the students of BHMS who study this subject as a part of their academic curriculum.

Now in its fourth edition, this standard text on homoeopathy highlights different plants and the illnesses that can be treated by them.

The author enlightens the readers' mind to a new concept with recorded facts supporting his theory. Complete guidelines have been given for the readers to incorporate this method into practice and test its effectiveness themselves. A new concept is dealt with -- that of Plastic Medicine (ie: modification of specific parts of the body which may require plastic surgery), by homeopathic medication. The author has been practising the art of plastic medicine since 18 years and he has termed these medicines as plastic medicines.

Fever is so often suppressed in North America that characterization and differentiation of fevers seems a lost art. It is a Materia Medica which is useful in the treatment of fevers. Characteristics and differentials are mentioned. A repertory is appended which is very useful.
