The Tall House is a children's picture book about a house that reached the sky.

The Flyers of the Mountains and the Wanderers of the Flatland have always been enemies but Val of the Wanderers and Timo of the Flyers become close friends as Val searches for her missing brother and Timo tries to change an old law.

Colin has yet another argument with his wife and storms out of the house with the intention of watching the remaining half of a football match in his local pub. However, he is knocked down by a car whilst crossing a road.And,That is just the start of his troubles...

When There Is No Wind, Row tells the story about the remarkable career path the author traveled to become a lawyer. When she began that journey in the 1960s, social and cultural barriers were high - women were supposed to become wives and mothers not lawyers - forcing her to tack to different careers. She faced financial barriers as well. The author tells about growing up poor in the 1950s in Kennebunk, Maine. When she left for college, scholarship awards and a student loan with savings from her summer jobs didn't cover her first-year college costs. But she made it, graduating Phi Beta Kappa in 1966, even though married and supporting her widowed mother by her junior year.Her plans for law school were thwarted by the lack of financial aid for women for professional schools. When she began her job search in Boston, want ads were segregated by gender. She landed interviews for "male" jobs through an employment agent who failed to disclose she was female. The first interviewer refused to see her and, at her next interview, she was made to wait for seven hours. She finally landed a job as computer programmer at an insurance company even though she didn't know what a computer was. Her qualification for the job - she could play bridge! At age 30, the author left her computer career for law school - student aid for women had become available with passage of Title IX of the Civil Rights Act. The barriers for entry into the legal profession in Boston for a lawyer with her unusual "credentials" - female, mid-30s, married, a mother, a public school education and a prior career - were too high to overcome. She tacked to a unique job with the consulting firm, Arthur D. Little, Inc. supporting the company's international projects at the outset of economic globalization. At age 40, she finally began practicing law, building up an international tax practice well before fax, email and the Internet. At age 50, she parlayed her career experiences to found a successful tax software company with her husband.

The Story of Tiger Lily & Peter Pan

Soaring freely on wings of silky canvas fabric, a colourful kite is barely seen against a clear blue sky. Higher than any of the other kites, twenty assorted kites jostled for maneuverability. Higher above them floated a sky flyer, its fabric skin taunt against a warm updraft and wind. Stressed to the breaking point, the tethered line held fast to the kite's structural frame. Lazy dog day afternoons are meant for relaxing, and will be recalled in declining years of age. The Sky Flyer waved its long tail of spinning fan blades. Competing kids unreelt in line, in hopes of matching the sky flyer's height. Eyes fixated on the height of the sky flyer. Kids cheered, and town's folk paused, all awed with delight. Some wished that their childhood could have been as adventurous and playful. This September of Nineteen-Ten Is a momentous day. Quote: Boy, kids had fun back in the olden days. Modern kids are missing out on life. At sixty, I want to go fly a kite!

All he ever wanted to do was fly. Three-time Coretta Scott King Award-winning author Angela Johnson and New York Times bestselling illustrator Loren Long invite readers to ponder a band of undercelebrated World War II heroes -- the Tuskegee Airmen. With fleeting prose and transcendent imagery, this book by the masterful author/artist duo reveals how a boy's love of flight takes him on a journey from the dusty dirt roads of Alabama to the war-torn skies of Europe and into the hearts of those who are only now beginning to understand the part these brave souls played in the history of America.

Buried in the bowels of one of the several intelligence agencies in the US government is an office of clandestine medical personnel. Their mission is to analyze the health and mental state of international persons of interest and report their findings to America's policymakers. The team is on call 24/7 to comment on and analyze any written observations, pictures or videos of such persons of interest that may come into the hands of the U.S. government. The goal is to provide timely information to policymakers and negotiators so that the United States of America may achieve maximum success in dealing with the people concerned. Usually this is done in the safe confines of the Agency walls, but sometimes the analysts are forced to place themselves in harms way. Through it all and despite the circumstances, their Code of Honor is to Do No Harm.

"Uniquely, authentically and enjoyably Belfast" (Tony Macaulay, author of Paperboy) Following the success of Snugville Street, "an enjoyable coming-of-age tale with a Belfast twist" (The Irish Times), Angeline King takes us on another journey – this time to Washington D.C. When Annie and Jean meet at an induction for Project Children, a real-life charity that brought 25,000 children to America during the period of the Troubles, Shaun assumes he is in the company of old friends. Alone with Annie at Carrickfergus Castle, he then finds himself in a precarious situation with a married woman. Letters cross the Atlantic follow, and Shaun becomes increasingly immersed in the world of Protestant Ulster. Fans of Snugville Street will enjoy meeting Annie and Shaun as much as they enjoy spending time with their old friends, Jean and Harry. There will be tears and as we follow tragic events that lead to Harry's crime, and laughter as we encounter the charm and personality of the people of Northern Ireland once again. A Belfast Tale is a soulful transatlantic tale of ordinary people in extraordinary circumstances 1990s Belfast.

In this book, the readers will learn how to overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone to go forward with the plan and with the goal. It wasn't that long ago that girls were forbidden to ride bicycles. Also, it wasn't long ago that girls had to dress up as boys in order to stand out in society. This is the case of Alfonsina, a girl who loved to ride her bicycle, but had to fight hard for her dream. Alfonsina Strada (1891-1959) was the first woman to compete in Giro d'Italia, in 1924. The Queen of the Pedal, as she was called, is, today, a symbol of strength and resilience – which also led to her nickname devil in a dress.

Katrina's Grace: Wind, Water and Wisdom takes us on Sandra's journey of recovery from Hurricane Katrina. Join her from a pre-hurricane fall that left her helpless and found her at her daughter's home waiting and wondering what was happening in Gulfport, to first sight of her destroyed home, car, and treasures. The journey continues through a lifetime of memories as lost treasures were unearthed, to the streams of volunteers who came to help her wade through the upheaval, build a temporary living space, and care for her neighbors and others in the community. As we read Sandra's story, we remember our own grief and loss after Katrina or similar disaster experiences. This story speaks not only to the survivors, but to disaster responders who come to pick up the pieces yet don't hear the rest of the story of those with whom they shared an hour or a week, and finally they and all readers are able to feel the pain around the disasters where they served. Additionally, it provides insight for volunteers going into disaster work. A powerful yet sensitive story of dwelling in Grace and the incredible gifts of Grace from nature: from those who prayed, sent gifts, and came; and from living memories. Weaving reflections on lost treasures with journal excerpts, poetry, stories of those who came to help, sent needed materials and supplies, and also prayed, Sandra Price presents stories from a heart-breaking disaster. Katrina's Grace invites us into the depth of Sandra's soul and on into the depth of our own souls. As we read her story, we remember our own disasters and weep, laugh and ponder. And we can understand why Sandra said of Katrina, "I wouldn't have missed it for the world."
